The Sustainable World Project has united 24.000 people from all around the world and attracts dozens of new people every day. We aim to inspire heart centered habits for humanity. Habits revolving around the six heart virtues of appreciation, compassion, forgiveness, humility, understanding and valor.

I would like to end reminding you of how wonderful you are; how important you are. The world is waiting for you to claim your power and bring your unique contribution. Nobody else can do what you came here to do.

I believe in you. See you next Saturday!
