

STARTER PACK SUSTAINABLE WORLD LEADERSHIP PROGRAM

Educational Institutes

This Starter Pack explains in 4 simple steps how to start the Weekly Sessions on the online Empowerment Platform for students, teachers, staff, parents and others connected to your Educational Institute.

Step 1

Choose the size of the group of students you would like to offer the opportunity to participate in our program. It can be your pilot project to see what value students get by participating in the session.

Step 2

Send the 'Promo Pack PA Students' to the selected group of students using WhatsApp, email, or otherwise. Link - [Promo Pack PA Students](#)

Step 3

When you receive questions of the students, please bundle the questions and forward to info@sustainableworldproject.com. We will start writing a FAQ (Frequently Asked Questions) section and add that to the Promo Pack. After one month of participation take the feedback of the students. If it is positive and you feel comfortable with the value we provide then offer the opportunity to the remaining students. Send the '[Promo Pack PA Students](#)' to this group.

Step 4

When after 3 months there is a positive buzz in the educational institute then now teachers, staff, parents and others can be invited. For this please download the 'Promo Pack Participating Audience Other'. Link is - [Promo Pack Participating Audience Others](#)
Then send it out to all of those you would like to offer the opportunity to participate in creating a world that works for ALL people.
