

STEP 25 OUT OF 50 – VISION 2035

Inspiration for your participation in

The Sustainable World Project

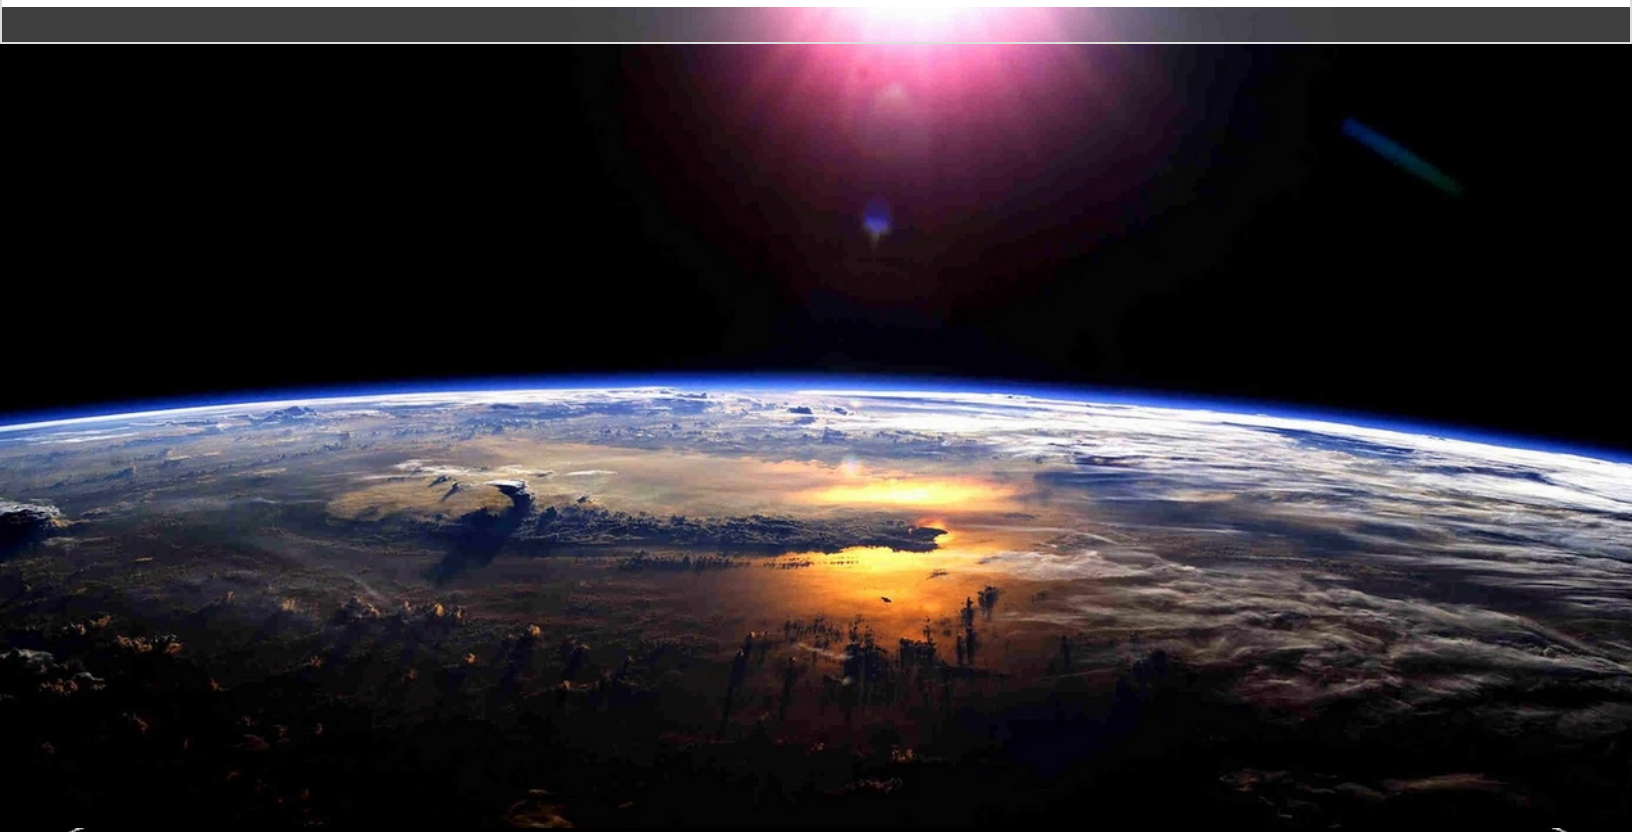

Get a Life You Love => Get a World You Love

We like to introduce

Vision 2035 Empowerment Platform

Step 25 out of 50 to create a world that works for ALL by the year 2050

Universal Export by Richard Alexander

**Oct 1st 2035 8:00 am, Bangalore, India – Local Preparation**

Twenty kilometers South of Bangalore we find Pyramid Valley. We see Brahmarshi Patriji talking to 400 Sustainable World Community Members and other volunteers who have come to prepare the location. For now, the Buddha Maitreya Pyramid is empty, but in 5 days time it will be very different. In 5 days time we will see a huge video screen, 5.000 chairs, cameras, speakers, microphones and other equipment. On this location, at 7 pm, Saturday Oct 6th 2035 5.000 people will participate in the very first larger monthly Worldwide Interactive Event."

In the pyramid we have a small ceremony. Onscreen we see the actor that plays James Bond who says: "I declare that between 7 pm and 9 pm IST, October 6th 2035 we will unite 8 million people worldwide. These 8 million people will have an unprecedented experience. This experience will be so powerful that it WILL change the rest of their lives. This experience will be so powerful that it WILL create a world that works for all people!"

We take a moment to let this powerful declaration of Bond into our hearts and minds. We have all seen the new Bond series where this worldwide interactive event was announced by Bond having visions of the future. Next, together we watch [the Teaser 1 of the Sustainable World Project](#).

**Oct 5th 2035 9:00 am, Coorg, India – South-East Asia Headquarters**

In 2024 the Tamara Resort was selected as the first of many resorts that host people for our regional headquarters. The second quarter of 2025 we had 13 people of the Core Team residing at this resort during our P2 Empowerment Camp. Today, more than a decade later, hundreds of team members are ongoingly rotating residing at the resort. Daily they are meeting with crucial people in South-East Asia to forward the mission of creating a sustainable world.

After thousands of Zoom sessions on our Empowerment Platform, tomorrow is the day we start reaching more than 8 million people worldwide. This is only possible because of the many conducive locations worldwide where parts of the vision were received. The pic below shows Founder Richard Alexander on Friday Feb 16th 2024 connecting with the sacred nature. The location below is right next to cottage 112 at the Tamara Resort.

Richard knew that in this sacred and quiet space he would be able to receive and document more of the vision of where humanity could be going. Saturday Feb 17th he received new visions for 2024 and 2025 on the porch of cottage 112.

**Oct 5th 2035 10:00 am, Bangalore, India – Pyramid Valley**

At Pyramid Valley 10 of our Country Leaders for India are having their first meeting for the day. After thousands of sessions of the Get a Life You Love Program, the Sustainable World Leadership Program and the Sustainable World Community Program, tomorrow is the day we officially start our monthly Worldwide Interactive Events on our Empowerment Platform.

This is only possible because our Core Team has been visualizing and preparing this event for over 3 decades. Tomorrow these 8 million people will be participating in the creation of a Sustainable World. Our shared objective? A world that works for ALL people by the year 2050. Watch how the Empowerment Platform started in 2016 - <https://youtu.be/tjs140RUCgk>

The interactive event tomorrow will be an elaborate show, designed to touch, move and inspire our Sustainable World Community Members through many unprecedented experiences. This first larger event has as a theme 'Connecting people's Hearts'.

Oct 5th 2035 9:30 am, Coorg, India – the First Meeting

In Coorg, 20 Country Leaders have an online meeting with the 50 Core Team Members who completed the 7th Empowerment Tour in the US.

We go over the final preparations and then spend 30 minutes together in a healing session with guided dialogue to empower ourselves. Meet the Core Team Members who ARE changing the world. Watch [Video first Primary Leaders 2021](#)

1. Team Asia West
2. Team Africa
3. Team Asia East
4. Team North America
5. Team South America
6. Team Middle East
7. Team Europe
8. Team Pacific
9. Team Central America
10. Team South East Asia

**Oct 5th 2035 1:00 pm, Coorg, India – Connecting with CC**

At 1 pm the 20 Country Leaders connect online with 500 Country Coordinators of Connecting Consciousness (CC) to prepare the event. In 2025 we reached out to a 100 Global Movements. For 10 years we have now been collaborating with CC, OST, TVP and many others. Since 2025 we have been financially and technically supported by the White Hats in all the 10 different regions

Leadership roles in all the 100 global movements became available for all our Sustainable World Leaders and vice versa. An organic uncontrolled process of allowing leaders to exercise their free will in how and where to contribute has been a win for all leaders and for humanity. A second online meeting is taking place to prepare for the October 6th event. A team of 16 Indian Sustainable World Leaders and OST Initiators will facilitate at the Pyramid Valley location.

Members of all 100 movements are supporting with facilitation on many locations worldwide. The most committed ones have become Country Coordinators, Country Leaders, State Leaders, Project Leaders and Core Team Members. They will spend the next 15 years up to 2050 on empowering people worldwide. Their objective? A world that works for all people. These leaders will spend their entire lives on creating a Sustainable World.

**Oct 5th 2035 7:00 pm, Coorg, India – Primary Leaders**

Later that day, the 20 Country Leaders in Coorg are having a third online meeting with the 8 Primary Leaders of the Sustainable World Project who reside at the Chinnaswamy stadium in Bangalore. In 24 hours time a total of 100 Country Leaders from India will host the 40.000 people in the Chinnaswamy stadium.

The Primary Leaders of the SWP are Tom from China, Nikita from Russia, Rani from India, Lulu from South-Africa, Kenny from the US, Treasure from Brazil, Annie from Egypt and Kaori from Japan. They are the Higher Consciousness Project Managers who are coordinating the entire worldwide event. They are for sure THE most amazing people I have ever met. The wisdom, love and power they exude is an inspiration to all who have the privilege of interacting with them.

The fourth meeting is offline with Saboo from the local government of the state of Karnataka. Saboo is meeting the 20 Country Leaders at the Tamara Resort. He understands that the only way to have a state that works for all, is to connect the hearts of all the people. Saboo is 5'4", a big mustache, curling black hair and bright shining eyes. "Dost banange, lets be friends, it is so good to see you!", he says with a warm voice.

**Oct 5th 2035 7:00 pm, Bangalore, India – Chinnaswamy Stadium**

“I have everything prepared.”, Saboo continues, “Tomorrow at 7:00 pm the Worldwide Interactive Event can start and we will have 40.000 people participating in the Chinnaswamy stadium. We could actually sell out the stadium another 50 times, but people will have to be patient and wait for the next event on Saturday November 3rd 2035.

Congratulations on uniting 1600 Sustainable World Leaders! This means we are going to see even more positive change worldwide than we see now. I can't wait!

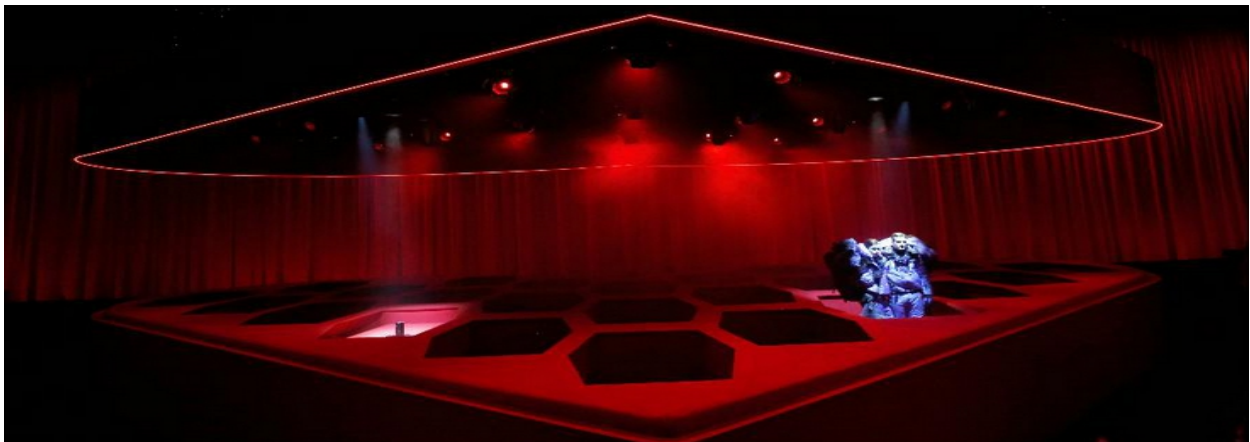

Let me tell you a bit about tomorrow. We are expecting more than 3 million participants worldwide. We are going to connect with 9 other stadiums. Tomorrow 6 huge inflatable Airscreens will be setup in the arena so 40.000 people can connect with their fellow human beings worldwide.” Saboo smiles, pauses and says: “This, has never been done before in the history of this stadium.”

**Oct 5th 2035 7:00 pm, Bangalore, India – A 'Mobile Heart'**

In the stadium we see a huge heart shaped platform. It is equipped with the new anti gravity technology that the White Hats have made available. This way Sustainable World Leaders can host shared activities from the heart, while meeting the audience face to face. In our 'Heart' we will have 3D hologram solutions so the audience will 'connect' with more than 'what is just local'.

The stadium and the 'Heart' shaped platform will have an abundance of light effects powered by new energy solutions. One portable Q.E.G will be used to power our 'Heart'. This means our mobile 'Heart' can easily move to any location in the stadium and 'connect' with the hearts of our audience. The audience mostly embraces members of our 100 Global Movements and their friends, colleagues and family. We call all of them our Sustainable World Community Members!

**Oct 5th 2035 5:30 pm, Dubai, U.A.E. – An Elaborate Show**

The atmosphere around the events is one of love, joy and excitement. Next to our Sustainable World Leaders and Community Members, we have the support of the many members of the 100 global movements who have united to bring about that beautiful world we have jointly been visualizing. We also have the support of students and other volunteers who have requested us to be part of the team that is changing the world. With that much support we are clear the world is truly moving into a new realm of abundance.

At our 10 leading locations we have obviously a bigger budget to create this elaborate show, however all people who host a location are invited to use our theme 'Connecting people's Hearts' within their available budget. All around the world locations are being prepared inside this theme. In the stadium in Dubai all the light effects and 3D Hologram solutions are being tested.

**Oct 6th 2035 5:00 pm, Bangalore, India – Creating the Space**

Two hours before the event starts. People at work and people at home can join this event online. They are transforming their conference rooms, living rooms and gardens into interactive locations. Beautiful 'heart' shaped decorations and lighting are creating a magical space in which all people will feel welcome; a magical space in which all hearts will be connected. Worldwide people are inviting their colleagues, neighbors, local communities and best friends. They are what we call the 'Sustainable World Community Members'.

The intention is to awaken the potential we all have inside. We are ALL capable of extraordinary acts. We just need someone to remind us how wonderful and worthy we all are. This is exactly what these interactive events are for! This is exactly what the Empowerment Platform is for!

Since two days people have started sending us pictures of their 'heart' shaped decorations at home. In two hours time, in the event, we we will use an AI to display some of them on the big screen.

Oct 6th 2035 10:00 am, Barcelona, Spain – Worldwide Preparation

Around the world the 10 stadiums are being prepared. In Barcelona 5 Country Leaders from Europe are facilitating all activities. Today, four portable Airscreens are being setup.

In Europe we are working together with Eric from 'Teach for All', a youth leadership program connected to our Empowerment Platform. Our Sustainable World Leaders have gotten exposure of many powerful leaders. Some of their names are Brahmashri Patriji, Foster & Kimberly Gamble, Micheal Tellingier, Simon Parkes, Steven Greer and Gene Decode.

**Oct 6th 2035 6:00 am, San Jose, Costa Rica – VIP Tickets**

A rail track has been placed at the edge of the arena in the Costa Rica Stadium. On this rail there will be a locomotive which pulls 10 carriages and a 'heart' shaped platform. This platform also has the anti gravity technology. It can move freely towards the audience or hover above the last carriage. In the first 10 carriages people can have another unprecedented experience. Through audio and video we connect the people in the carriages in pairs of two with 2 other people elsewhere in the world.

The people who are allowed in these carriages will have VIP passes, which means 'Very Inspired Person'. People who have pledged money for humanitarian projects have been offered these unique passes. Within the Sustainable World Project we aim to inspire people into new paradigms created from a higher consciousness. One aspect of this new paradigm is to reward people for genuine selflessness.

Once a year our Core Team is traveling in Empowerment Tours where they stay in mobile homes or resorts, visit projects worldwide and find these rare gems of people. Reported back to us we make sure these people get access to more and more resources.

**Oct 6th 2035 7:00 am, San Jose, Costa Rica – Light Effects**

The light effects in most of the locations around the world will bring an incredible atmosphere. The 5 Country Leaders from Central America are testing some of the light effects in the stadium in San Jose. We see John, one of the Core Team Members of the region North America on the big screen. He is our Higher Consciousness Communication Team Leader. “Christmas is early in San Jose!”, he is joking.

John inspired a project named Christmas Forever. A dedicated team has been traveling the world to bring the Christmas spirit. This team not only has Christians, it has also Hindus, Muslims, Buddhists and people from other religions or no religion. They celebrate diversity and bring the empowering aspect of kindness and care of all religions. They are now finding a new name for the project that shows we include all.

The Core Team Members are the heroes among all our leaders! Actually, they are everybody’s heroes! However, they make sure they turn this around very quickly. The humble way they interact with people turns every day people into heroes. And that’s who we ALL truly are.

**Oct 6th 2035 6:00 pm – Unprecedented Experiences**

We have been doing our online programs for many years now. Initially people's minds cannot fathom a world that works for all. It literally does not fit in our lower egoic consciousness. How to empower people so they start believing we CAN create this world? We empower people by having them remember who they truly are. We are consciousness and all consciousness is connected as one. Every person is connected to all that is. Every person can therefore influence all that is. That is how powerful you truly are!"

Belief follows experience. That's why our programs and events are all about creating unprecedented experiences. In 1997, the unprecedented experiences in a Reiki weekend where the Founder of the Sustainable World Project learned about Reiki, changed his entire life. [Watch Short Life Story & Vision Founder](#) If we empower the critical mass of our 10.000 leaderse worldwide, then it WILL not only change their entire life, but as consciousness is connected as one, it will impact the collective consciousness and it will change the lives of all people worldwide. All people will be empowered to create a sustainable world!

**Oct 6th 2035 6:30 pm – No Matter where you are**

People are joining online from many different locations worldwide. Some people join from their secret hiding spots where they always hang out with their best friends. Other people setup their laptop at that cozy place in the attic. Again others take their smart phone, tablet or quantum phone and go to their favorite spot in nature.

Many people simply join from the convenience of their living room. Maybe they dim the lights and light a candle. Let it be 'heart shaped' for this event!

We expect more than 6.000 inflatable Airscreens so people can join the event in nature while being with their favorite community; the people they love most; the people that make them feel safe!

At our Mobile Headquarters our HQ Manager, one of our 50 Core Team Members, is preparing the setup of a large Airscreen.

Oct 6th 2035 5:20 pm, Dubai, U.A.E. – 10 Min's before the Start

Tonight we have nearly 3.000 planes, trains and automobiles joining in. Many yachts are also connecting to the event. It is after all not that complicated. You just need a screen, a computer or phone, a camera, internet connection, microphone and speakers.

Some of the public transportation companies worldwide are offering their travelers an opportunity to connect to the event. Emirates has equipped 2 planes that fly from Dubai during the event, so all travelers can enjoy unity consciousness while traveling to their location. The car manufacturer Saab has installed screens in the headrests of the front chairs of their bio hybrid water fueled convertible cars. This way 2 people can join the interactive events from the back seat.

When you choose to participate in a plane, train, bus or other location with multiple participants, the system automatically connects you to the other participants on your location. You can enter your seat number and that way easily find and connect with likeminded people. Likeminded people who also care about our world. This way new friendships are easily made; new hearts are easily connected.

**Oct 6th 2035 6:55 pm, Bangalore India – New Energy Solutions**

It is 6:55 pm local time in Bangalore. Five minutes before the start of the event. The 'Sustainable World' theme plays in the background and a soft and excited whisper is in the air.

From the 'Global Empowerment Room' in the Chinnaswamy stadium the leaders are looking at one of the six screens and projectors. We have two new energy solutions to power them. To power the stadium we are using one generator that gets its energy from the zero point energy field. This technology has been released to the public. It is so powerful that one device the size of a small car can power the entire stadium. This generator is called a QEG. (Quantum Energy Generator)

There is also a new energy solution that comes in the size of a shoe box. That size can provide electricity to houses hosting families up to 6 members. A larger size of this is powering our moving 'Heart' shaped platform.

Oct 6th 2035 7:00 pm, Bangalore, India – The Start

The countdown of the event starts. 10, 9, 8, 7, 6, 5, 4, 3, 2, 1. On the big screens we see the stadium in Dubai. We hear an impressive voice saying: "FREEDOM, ABUNDANCE, LOVE. THIS, IS FOR EVERYONE!"

**Oct 6th 2035 8:30 am, Arlington, USA – The Start**

The 8 Primary Leaders and the 50 Core Team Members tested a first pilot Worldwide Interactive Event when they were on Empowerment Tour 7 in the US earlier this year. They facilitated that event from the AT&T Stadium in Arlington. It is one of the ten stadiums worldwide hosting the event today. We look at the large screen in the stadium. We see 9 squares representing nine out of the ten leading locations.

Worldwide we hear the 'James Bond' theme mixed with the 'Sustainable World' theme on connecting people's hearts. The first unprecedented experience overwhelms us. It is 8:30 am in Arlington, 10:30 am in Rio, 3:30 pm in Frankfurt, 7 pm in Bangalore, 8:30 pm in Jakarta and 9:30 pm in Shanghai. There are 116.788 locations, hosting 3.456.128 people in 212 different countries.

Oct 6th 2035 2:30 pm, Dublin, Ireland – the Start

All locations worldwide display 5 of the 8 Primary Leaders of the event. At a THRIVE Empowerment Center in Dublin we see Nikita, Rani, Lulu, Annie and Kaori on the big screen. The Zoom screen switches to speaker view. We see Bond.

MGM has equipped 50 movie theaters worldwide. In a worldwide synchronized event Amazon MGM Studios is releasing Bond's Mother in 50 interactive movie theaters. The audience in these 50 theaters are now watching this 30th Bond movie. They just completed watching the first two hours. Now is the start of the much anticipated Flash Life where the movie has become interactive. The audience in these 50 theaters are now part of this very first Worldwide Interactive Event. This event has been announced through the story line of earlier movies and also in the first two hours of the movie. It is a seamless story line where the new Bond is on a journey to transform our world.

Bond says: "Lets start with closing our eyes for a moment and observe our breathing." What we have been doing weekly in our Zoom sessions is now having a whole new level of power. Our consciousness shifts from an impressive and loud start to a profound silence. We move deeper into the present moment.

In the last months everywhere around the world new interactive movie theaters have been popping up. Existing big screens are hooked up to the internet, cameras are installed and speakers and microphones are connected.

Watch a [Visualization video with our vision for 2029 to 2038](#)

**Oct 6th 2035 2:30 pm, London, UK – the Start – SWLP Friday**

The moment Bond is seen on the big screen, an audience in a London movie theater starts applauding. There is a buzz worldwide about humanity uniting. We are all very aware that an unprecedented transition is unfolding. It is clear that by September 2038 we will have reached the critical mass of 10.000 Sustainable World Leaders. Worldwide we see people wake up with incredible speed. Every day thousands and thousands of people become active participants in creating a world that works for all people. And that is just what we see and hear happening around us. The real numbers must be way higher!

Many movie theaters around the world are transforming into interactive locations where people come together to connect with their fellow human beings; where people come together to experience our true state of oneness. The pilot events of the last years have shown that in a space of unity consciousness new forms of collaboration are manifesting very fast. This is leading to a lot of positive action worldwide.

**Oct 6th 2035 9:30 am, Guadalajara, Mexico – the Start**

Inspired by our mobile Headquarters facilitating our online sessions, people around the world have started to deploy many different types of mobile locations. Trucks and trailers are used to reach out to more remote communities. At Plaza Teatro Degollado in Zapopan, near to Guadalajara a 'Sustainable World' truck sponsored by Samsung has brought a Samsung screen.

The left side of the truck is opened and the screen displays some of the cities being connected. Every capital of every country in the world is already participating in these events. By the year 2044, when we facilitate Shanghai Act 3 we expect to include every city and every village in ALL countries worldwide.

At Plaza Teatro Degollado 276 people are watching the Samsung screen. Well, actually not all 276, some of the men are not looking at the screen. They are looking at the ladies presenting the screen.

**Oct 6th 2035 11:32 pm, Sydney, Australia—Two Mins after the Start**

All screens now switch to Sydney, Australia where we see the Opera House. Amir, a CC Member, now asks: “What is present? This means what are you thinking and how are you feeling right now.” Then he smiles and adds: “The truth is always good!”

Worldwide we have now learned to be genuine. On our online Empowerment Platform millions of people have gone through the Non-Violent Communication (NVC) programs inspired by Marshall Rosenberg. When we are being authentic on our thoughts, feelings and needs, hearts are easily getting connected. It is our shared humanity that connects us all.

**Oct 6th 2035 10:33 pm, Tokyo, Japan – Expressing Love**

Three minutes and 10 seconds into the event. We switch to Tokyo, Japan. We see Takara, who is working with TVP on building a next city of the future in Japan. She says: “Kon'nichiwa, watashinon namae ha Takara. I live in Tokyo, Japan. What's present for me is a love I have never felt before; a love for all people!” She looks straight into the camera and with the warmest smile I have ever seen, she says: “I love you!”

Aishwarya from Sri Lanka thinks: “Wow, I realize that Takara does honor the meaning of her name! I am more than 6.000 kilometers away, but her love is so powerful that it touches my heart right here in Colombo and I am sure I am not the only one experiencing this!

As her name states, Takara is indeed a treasure!”

Oct 6th 2035 4:33 pm, Nairobi, Kenya – Expressing Gratitude

Three minutes and 30 seconds into the event. We switch to Nairobi, Kenya and we see Rose. Rose is working with Micheal Tellingier on a next One Small Town (OST) in Kenya. She says: “My name is Rose. I live in Nairobi, Kenya. I am so grateful for our host setting up this interactive location so all of us in our community could join this event! Thank you so much Nate!”

**Oct 6th 2035 4:33 pm, Tel Aviv, Israel – One World, One Family**

Three minutes and 40 seconds into the event. We switch to Tel Aviv, Israel and we see two boys being the best of friends. Amiram speaks: “My name is Amiram. I am living in Tel Aviv and this is my best friend Abdul from Palestine. I am present that we are all brothers and sisters. I think some of the adults though need to wake up. Do not allow yourself to be influenced by mainstream media! Realize that we are 'One World'. We are 'One Family'!”

Worldwide some of the adults confront for a moment how much we still have to learn of the young people around us.

Amiran and Abdul are working with Sacha Stone on a next Micro Nation in Israel. This will have us transcend the conversation on country. A Micro Nation is an area of planet Earth where anyone is welcome without visa or passport. It is here that people live as brothers and sisters, regardless of backgrounds that used to separate us. We are celebrating transcending religion, culture, caste, tribe, class, color and more. Yaaay!

Oct 6th 2035 9:34 pm, Singapore – Contributing Celebrities

We have invited some of the famous people around the world to do a shared activity with our OST, TVP, CC, AOL members and many other members. We simply call all members Sustainable World Community Members.

The celebrities can pick any flavor they like. Activities like singing, dancing, dialogue, art, praying, chanting, meditation, healing and more. Any activity is possible. The activity is just the excuse to be together. Today, in Skypark, Singapore, we have a celebrity co-hosting the event.

**Oct 6th 2035 6:34 am, San Francisco, USA – a 3D Hologram**

The 10 leading locations have 3D hologram solutions on the moving platforms. This way audiences on these locations can see any or all of the Facilitators on their local platform. People in the University of San Francisco see 6 leaders named John, Grace, Jake, Eerini, Surrender and George 3D projected on stage. On a big screen on the platform in Arlington, as that is where they are, these 6 leaders can see the audience of the location where they are being 3D projected.

The Facilitators of this global event are following a time line meticulously planned from second to second. At the same time when inspiration is present they allow themselves to deviate. Right now they all keep on being 3D projected to the 10 different leading locations. “Good Morning San Francisco!”, we hear. Then, on their screen they see they have switched to San Jose. “Buenos Dias San Jose!”, they say while being 3D projected in San Jose.

**Oct 6th 2035 9:34 pm, Hong Kong, China – the Moving Heart**

Four minutes and 10 seconds into the event. Shen Long is sitting in the audience of a theater in Hong Kong. He is a dear friend of Cho, one of our Chinese Country Coordinators, who is right now sitting in the audience of the Shanghai Stadium. On the big screen on the stage of this Hong Kong Theater he sees the stadium in Shanghai where the moving 'Heart', which is coming right to the stands where people are sitting.

He sees his friend Cho. Suddenly out of nowhere, but on the beat of the music, one by one he sees the 6 leaders John, Grace, Jake, Eerini, Surrender and George from Arlington appearing on the moving platform in Shanghai. After greeting the people in San Francisco, San Jose and Shanghai they now welcome the people in Hong Kong. They say: “晚上好香港 Wǎnshàng hǎo xiānggǎng => Good Evening Hong Kong”.

Using the 3D hologram solution all our Facilitators 'move' comfortably around the world. When a person is addressing all people, he or she is 3D projected on the other 9 leading locations and displayed on all screens worldwide. Sometimes when a pair share or other activity is happening, they take time to interact through the hologram solution with a specific audience or a specific person on one of the 9 other leading locations.

**Oct 6th 2035 4:35 pm, Moscow, Russia – Anything is Possible**

Nikita, the Higher Consciousness Project Manager for Element 2 – the THRIVE Empowerment Centers is from Russia. He is one of the 8 Primary Leaders. He is the ultimate joker. He has a way of being with people that wins everybody's heart. His favorite joke is on his name as most people think Nikita is a ladies name. He tells the audience in Moscow: "Nikita is no Seniorita. But today, I did bring a Seniorita. Her name is Tigra. She is ferocious, weighs 300 kgs and would like to eat me for breakfast. He pauses as the world starts laughing. On the screens worldwide you see and hear people laughing - Frankfurt, Germany. Tokyo, Japan. Venice, Italy.

Nikita continues: "Would you like to meet her?" The audience in Moscow shouts: "Da!!!" Suddenly we hear the roar of a tiger and we see a tiger 3D projected on the 10 platforms. It truly looks like she is about to eat Nikita. The Sustainable World Leaders often use humor to disarm our egoic conditioned minds. They love throwing in unexpected surprises. It creates an atmosphere where anything can happen. This is exactly what we want people to inspire into. A world where at any time anything is possible. A world with daily miracles. A world that works for all people.

**Oct 6th 2035 4:35 pm, Kigali, Rwanda - Being Unstoppable**

The big screen switches to flight WB-110 from Kigali to Cape Town. We see Mahoro and Honest connecting with 5 Country Leaders who are preparing for Empowerment Camp 8 in South Africa. Mahoro, Alice, Honest, Denzel, Lulu, Bishop, Saba and Mel are unstoppable. Since 2025, they have facilitated online higher consciousness leadership training for over 15.000 women and men. This team is literally changing Africa.

Mahoro's project started in Rwanda, Africa with not just bringing food, but bringing a new mindset to her local communities. Now Mahoro and her team have distributed 500 new energy solutions. They inspired over 20.000 vegetable gardens and opened 150 THRIVE Empowerment centers. Promoting the One Small Town movement from Micheal Tellingier, Micro Nations of Sacha Stone and TVP cities from Roxanne Meadows we have seen 134 One Small Towns, 89 Micro Nations and 10 TVP cities emerge in Africa and the other 9 regions worldwide.

The 1000 Country Leaders have now started a total of a 1000 THRIVE Empowerment Centers worldwide. Every country has a center and we are now on our way to have a center in every state or province worldwide. Together the Sustainable World Leaders have lifted the first 8 million people out of poverty and within 3 years time we are expecting to impact the quality of life of 80 million people.

Oct 6th 2035 7:35 pm, Dhaka, Bangladesh – Powerful Participation

Annie, our Higher Consciousness Project Manager for Element 6 is from Egypt. She is currently in Dhaka and jokingly she asks: “Who wants a world where all hearts are connected?” The Sustainable World Community Members always have a way to interact. They interact through their smart phones, tablets, desktops or laptops. Some locations have chairs equipped with interactive remote controls. Imran from Dhaka uses the Sustainable World Project App on his tablet as a remote control. He enters 'Yes, I would like a world where all hearts are connected'.

Oct 6th 2035 5:35 pm, Dubai, U.A.E. – All Hearts Connected

In Dubai Salma and her family are following the event from their home. On her tablet Salma sees the stadium in Dubai. All screens display a beautiful heart. Salma wonders: "How amazing would it be if all people could love each other without any barriers!" As she listens to Annie, she is more and more certain that this will happen. She thinks: "I am already feeling so much more connected! This feeling is so liberating." A big smile lights up Salma's face.

Being from a more orthodox background, it was difficult for Salma to inspire her family to allow her to join. When Salma watched the Teaser 2 video she realized how much she was identified with negative thought. Video link - <https://youtu.be/WHKZjsetQ3k> Salma thinks: "Sitting here, experiencing the connection, I now realize that there is a beautiful world beyond my small bubble. It was really worth the effort it took to get to join the life changing sessions on the online Empowerment Platform!"

Oct 6th 2035 9:35 pm, Shanghai, China – Mass Meditation

Sustainable World Leaders have connected with Pyramid Meditation groups around the world. For one hour, on a daily basis at 1:30 Sidereal Time, these groups are entering unity consciousness altering the collective consciousness in our world. We live stream these daily critical mass meditation sessions on Facebook, so anyone around the world can join. On the big screen we see 5.000 people meditating in Shanghai.

Oct 6th 2035 10:35 am, Rio, Brazil – Estadio Nacional – SWLP Sunday

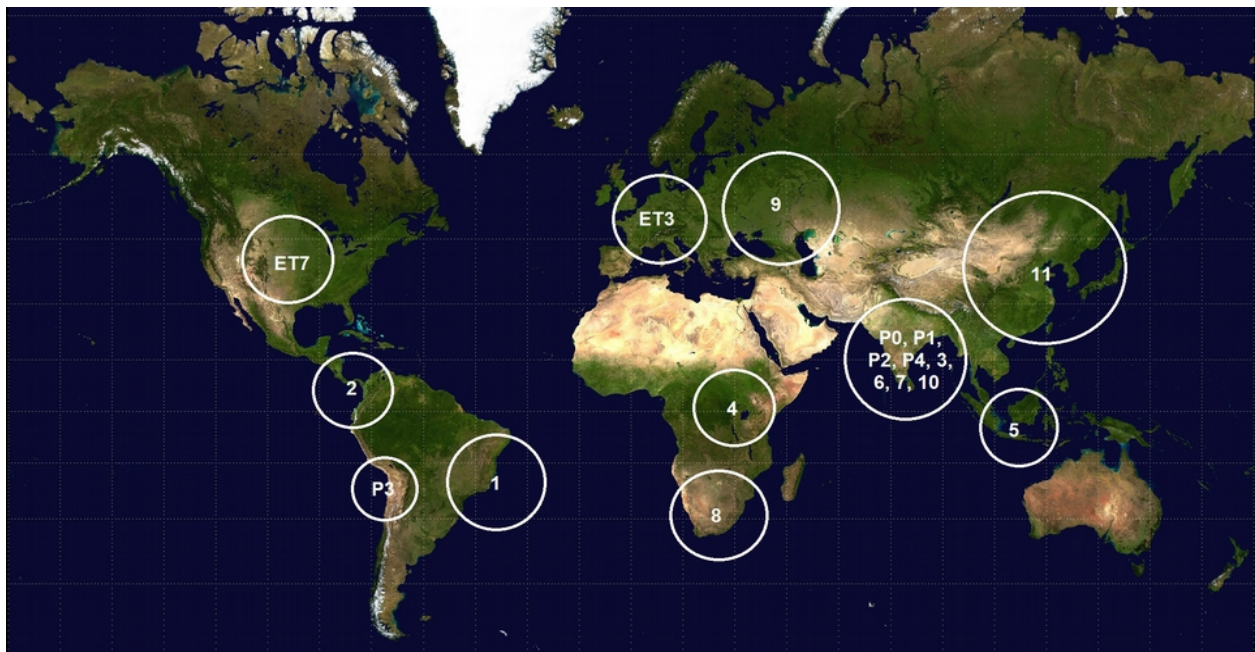

Five minutes into the event. Eight Sustainable World Leaders are working in the stadium in Rio to manage all incoming and outgoing audio and video. One of them is Treasure, one of our Core Team Members from Rio. Treasure is our Higher Consciousness Project Manager for Element 3. In 2025 she joined the Core Team and participated in the P3 Empowerment Camp in Peru. Take a look – [Watch video P3 Camp](#)

Oct 6th 2035 7:05 pm, Bangalore, India – Pyramid Valley

July 2029 we facilitated Camp 3. Take a look - [Visualization Camp 3](#) We had so many people joining the interactive events in our camp that the Buddha Maitreya Pyramid, which could host 5.000 people, was not sufficient anymore. Besides the big screen in the 'LIRI' tent we had to open up more interactive locations on the compound of Pyramid Valley. Deploying a large Aircscreen we connected with our Sustainable World Community Members of over 100.000 people.

Oct 6th 2035 3:35 pm, Cape Town, South Africa

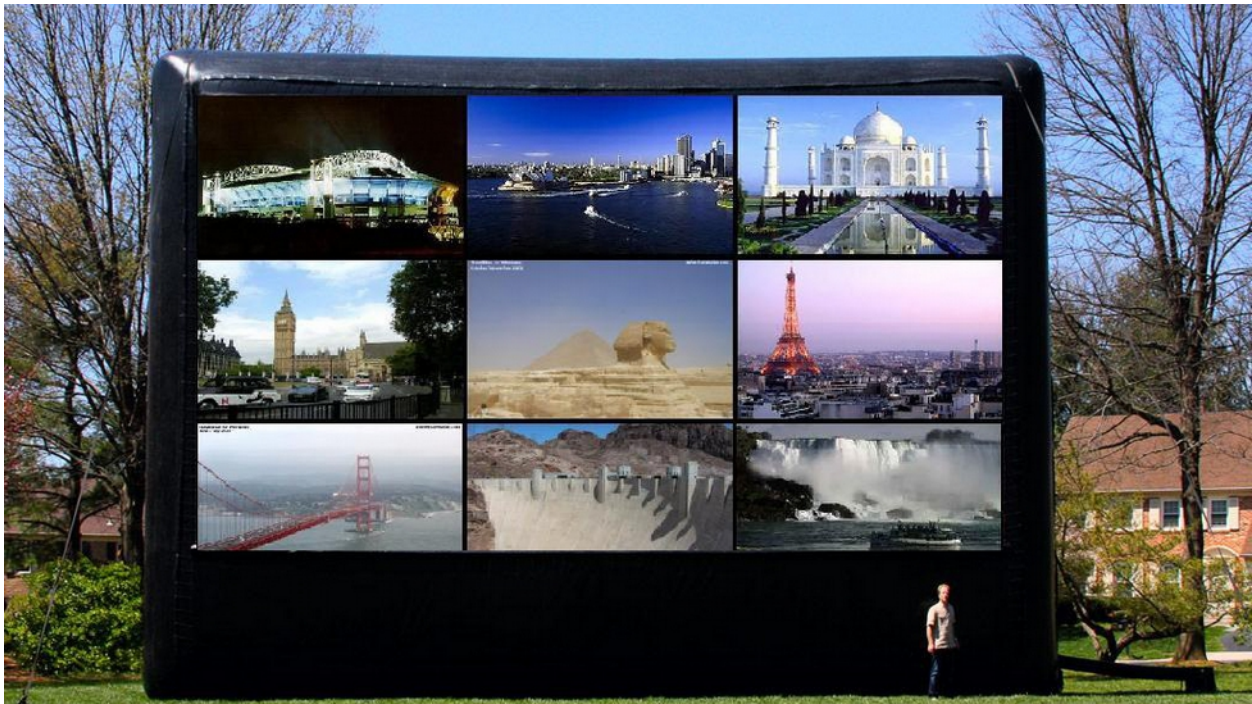

Five minutes and 10 seconds into the event. The screen switches to Cape Town. We see the city. We see 4 of the 7 Core Team Members from Africa. Then, the screen splits into two squares. The 2nd square now displays the Opera House where the Concert Hall is fully booked with 2679 people.

Oct 6th 2035 9:35 am, Ottawa, Canada – Inflatable Screens

In Ottawa we see a huge Airscreen, which now shows the 3rd square, the Taj Mahal, representing Agra with 5.000 participants. Then we see the 4th square, the Big Ben, representing London. Then we see the Pyramids in Egypt, the Eiffel Tower in Paris, the Golden Gate bridge in San Francisco. The screen now shows 9 squares and the squares are ongoingly changing to display all the different locations in our world.

**Oct 6th 2035 3:35 pm, Lohr am Main, Germany – One Worldwide Family**

In just fifteen seconds we have already seen hundreds of famous landmarks representing interactive locations. All these landmarks have been transformed into locations for participating in these Worldwide Interactive Events.

On screen we see a family in 'Lohr am Main' participating in the event from their garden with a Nano Airscreen. It is overwhelming to get that almost 3.5 million people have already tuned in from more than a 100.000 different locations. This event is truly bridging worldwide geographical boundaries. Different communities have now become one worldwide family.

Whether people gather at their schools, their homes, meeting rooms, club houses or movie theaters; they are mostly connected to our Sustainable World Leaders and Sustainable World Community Members. These selfless people play the key role here. By inviting their family, best friends, colleagues, old schoolmates and more, they are the global 'glue' connecting people's hearts!

Oct 6th 2035 8:35 am, Arlington, USA

Five minutes and 25 seconds into the event. Worldwide we see Bond, and all the other Core Team Members on the screen. Not a whisper is heard. We sense the excitement in the air. Then we hear the Bond music. After a dramatic pause the actor that plays Bond speaks: "Welcome my brothers and sisters! My name is Bond. James Bond. For today I will be your host. Today we have our 1672nd Worldwide Interactive Event. What started on Oct 6th, 2003 with 10 children of a Bangalore based NGO meeting 5 children of the THRIVE Empowerment Center in Holland, has now become a worldwide encouraged interactive event."

Bond speaks a few words in more than 50 different languages. She uses this so she can build relatedness with most of the people on our planet. English, Spanish, French and Chinese are just the start. I heard she aims to learn some basic words of nearly every language in the 212 countries shaping our beautiful planet.

**Oct 6th 2035 2:36 am, Auckland, New Zealand – A Safe World**

Bond says, "Who wants to tell us your purpose?" The question is posted on our live platforms like Facebook, Mighty Networks, YouTube and others. People who watch a live stream can answer the question. One of the Co-Hosts will then invite some of them to join the live Zoom Session. All 116.788 locations hear Bond's request. Within few seconds we hear our favorite tune with the synchronized 'bangs' when people worldwide click on 'Raise Hand'. We see the 'Raise Hand' symbol on Zoom popping up from locations requesting to share - Paris, France - Tokyo, Japan - Auckland, New Zealand.

As these events have grown organically from the communities of our leaders and members, there is a very high level of safety. Almost everybody feels comfortable to speak up. The leaders often address how the judgment of egoic consciousness had shaped our world. All members have become very aware of that. Worldwide people are learning to become an observer of the mind. They are learning to dis-identify from thought. When we see judgmental thought, we make sure that those thoughts do not become words and actions.

Oct 6th 2035 6:35 am, Los Angeles, USA – Jane's Purpose

Five minutes and 50 seconds into the event. Jane who is living in LA is joining the event from her Fitness Center. When she hears Bond making the request, she immediately raises her hand in Zoom to inform us she is ready to share. The screen switches to Jane and now we see Jane at the fitness center looking at her screen.

Jane says: "I love inspiring people to take good care of their bodies!" Then she looks straight into the camera and says: "Why? Because you are the most wonderful and most worthy person in the whole universe. We all are!"

Jane is looking to join the Core Team as a Total Well-being Consultant. Well, I guess after today's interaction she might actually acquire her desired role.

**Oct 6th 2035 6:36 am, San Jose, USA – Zoom**

Six minutes and 10 seconds into the event. We switch to Suite 600 in San Jose where we find Zoom Headquarters. Eric speaks: "This is Eric S. Yuan from Zoom Headquarters, San Jose. This morning I spoke to Brendan, our Chief Technology Officer. He said: "Zoom will support with the technology for Worldwide Interactive Events! We are working on providing breakout rooms for sessions with 10 million people!" Worldwide people go crazy cheering and shouting. Zoom's support will make a very big difference in our pursuit for creating a sustainable world.

Oct 6th 2035 9:37 am, Gitmo, Cuba – Connecting Prisons

Nikita jokes: "Lets switch to the White House." As the screen switches to the overcrowded prison in Guantánamo Bay, prisoners are almost falling from their chairs laughing after hearing Nikita. Elisa, barely able to stop laughing, says: "My name is Elisa. I am a 'guest' here in Gitmo. My purpose is to collaborate with Simone to get more prisoners involved and inspire other prisons to also join these events!"

**Oct 6th 2035 2:37 pm, Lisbon, Portugal – Healing the Sick**

On screen we see a hospital in Lisbon, Portugal. The disclosure of new healing technologies has been unfolding over the last 2 decades. The Med-Beds started becoming available in 2024 when JP an army veteran shared his experience of being on the Med bed. Now they are available in all major cities and more locations are being added daily.

Then the screen switches to a remote island. We see a young girl participating from a hospital bed. She speaks: "My name is Charlene. I have watched videos of Steven Greer and read his book 'Hidden Truth Forbidden Knowledge'. I want the new healing technologies from Unacknowledged Special Access Projects to be available for all people worldwide. I know my cancer can be healed.

She stops overwhelmed by emotion and starts crying: "I live on Weno, a small island of the Federated States of Micronesia in the Pacific Ocean. We don't have the Med Beds here. Am I not worthy to live? I don't want to die!"

Oct 6th 2035 2:37 pm, Lisbon, Portugal – Unprecedented Power

After hearing Charlene everybody worldwide is quiet. Alphonso a Country Leader in Lisbon thinks: “It is at these moments that I know we are deeply impacting the collective consciousness. Something very powerful is going to come out of Charlene sharing. I am sure that in one of the next events we will hear more about the distribution of these new technologies.”

Oct 6th 2035 9:38 am, Montreal, Canada – Including All Ages

The screen switches to an old age home in Montreal. Janet, a very active senior citizen, stands up and says:” My name is Janet. I live in Montreal, Canada. My purpose is to have more old age homes join these events. So many elderly people feel alone, ignored and not valued! I want to see the light shine in their eyes too!”

**Oct 6th 2035 5:39 pm, Dubai, U.A.E. - Emirates Stadium**

Nine minutes into the event. Bond speaks: "I request every participant to share with the person sitting next to you. If no one is sitting next to you, then go online and request for an Online Buddy."

On our website www.SustainableWorldProject.com we have a database with people who request to interact online with others. The database gets filled when the event starts. People enter their name, location, country, Skype id and/or WhatsApp number. Skype and WhatsApp are used parallel to Zoom. This way the people, who watch the live stream of the Zoom event, can be included when we do the pair share in the breakout rooms of Zoom.

The events need only one thing to make it very powerful and that is the experience of unity consciousness. What is needed for that is to transcend egoic consciousness. We do so through active participation in shared activities. The frequent interaction between online buddy's, guided by powerful dialogue of our multiple hosts, always guarantees an exit from the Egoic monologue in the head to an unprecedented experience in the heart.

Oct 6th 2035 9:39 pm, Beijing, China – Online Buddy System

Joe in Utah, had already made the request through our website. He had received the Skype id of Kiyana in Beijing, China. He calls her and says: “My purpose is to inspire people to eat healthy non GMO food.” Next, Kiyana says: “My purpose is to inspire people to become powerful leaders.”

Language is either in English or people can speak their local language and have it online translated through Zoom or other apps. Zoom uses an automated speech translation app from a former Unacknowledged Special Access Project and volunteers to ensure an accurate translation.

Oct 6th 2035 4:41 pm, Ankara,Turkey - Transformation of Religion

While people are sharing with their buddies the squares on the screen keep on switching. In Ankara, Turkey, Fatima sees the above 5 squares.

Fatima has heard that now people can join the events from some of the temples, churches and mosques around the world. She also heard that the amount of these locations is growing rapidly. The division religion had created for so long is slowly disappearing.

**Oct 6th 2035 4:41 pm, Moscow, Russia – Active Participation**

In the stadium in Moscow 50.000 people hear Bond's request. They turn to the person sitting next to them. To move away from the old paradigm of a 'Judgmental Inactive Audience' and strengthen the new paradigm of 'Non-Judgmental Active Participation' the audience can always participate in many different ways. For this request people can take a 'Selfie' and send it with their name, country and purpose in text or as spoken audio as a comment on Facebook, Mighty Networks, Youtube or to some of our volunteers who bring it into our unique version of Zoom.

When requests are made the 'Selfies' and answers are displayed on the big screen while we hear people's recordings in all the different languages. Sometimes the screen shows per person, but mostly in multiple squares. As Zoom is playing such a key role in transforming our world, they have gotten access to large server farms. Their maximum participation limit of a thousand people is ancient history now in 2035. They are now working on having 10 million people join in one session and have 5 million breakout rooms for the pair share.

**Oct 6th 2035 3:42 pm, Rome, Italy – Finding your 'Selfie'**

Twelve minutes into the event. After just a few seconds the 'selfies' are starting to show on all the screens worldwide. David, who is following the event with his friends from Rome is trying to find his 'Selfie' among the 2500 people being displayed.

Luissa, one of our Project Leaders is working with Zoom on the next version named Zoom SWP. In that version people will be able to see a blinking square to locate themselves when we show large numbers of people onscreen.

**Oct 6th 2035 7:13 pm, Bangalore, India - Mahoro**

Thirteen minutes into the event. Suddenly we see many 'Raise Hand' symbols on the big screen that displays the Zoom video platform - New York, USA – Rome, Italy – Bangalore, India - Sydney, Australia. The volume of the music is increasing. The screen switches to Pyramid Valley in Bangalore, India.

For a second we see the city of Bangalore, then the Buddha statue at Pyramid Valley, then one lady standing at the microphone. The 3.4 million people of all countries in our world are watching her. She says: "Hi, my name is Mahoro. I am 47 years old. I joined the Empowerment Platform in 2018. For a moment we wonder how Mahoro can suddenly be in Bangalore as we just saw her in the AT&T Stadium in Arlington. Then we realize it is a 3D hologram. What a thrill to use technology to contribute to humanity rather than controlling humanity.

**Oct 6th 2035 7:14 pm, Bangalore, India - Self Value is Key**

Mahoro continues: "In 2025 I spent 6 weeks in Peru at Empowerment Camp P3. It was here that meditation, guided visualization and beautiful nature inspired me. It was at this time that I started receiving a larger vision. An inspiration was awakened, an inspiration to become a global change maker, not just a change maker for Rwanda, not just a change maker for Africa, but a change maker for the whole world. A change maker with a deep love and respect for humanity and nature.

The power of the guided visualizations brought forth an inspiration that called me into life long action with all the other Sustainable World Leaders. The result is that now, 10 years later, 1600 Project Leaders, 300.000 students and 3.000.000 Sustainable World Community Members worldwide, are working together with Vidyaranya and hundreds of other NGO's, Change Makers and other organizations to create a sustainable world.

In 2023 I made a start with applying for project funding at CC. In 2024 I started preparing my project in Rwanda. I wanted to make sure that each and every person in Rwanda has access to food, a loving community and a higher consciousness learning environment. In 2025 I received my project funding. Now 10 years later this project is being replicated worldwide. We aim to inspire people to truly value themselves and therefore value each other, our environment and our world."

**Oct 6th 2035 7:15 pm, Bangalore, India – Worldwide Inspiration**

Fifteen minutes into the event. When Mahoro pauses, Bond says: “In our Empowerment Camps 7 to 11 we ask the Project Leaders to start their dream project for changing our world. During and after the camps we showcase these projects through our Projects Program in our Zoom sessions on our online Empowerment Platform. Most Projects are funded through Connecting Consciousness, The Sedona Connection and other organizations connected to White Hats and Dragon Families. These are the organizations who are literally changing our world. In our weekly sessions you will hear the inspiring initiators of many different projects serving humanity, just like this project of Mahoro. Who is inspired by Mahoro?” Immediately people from around the world raise their hands on Zoom.

We hear the 'empowerment music' and the screen switches to Frankfurt, Germany. Silke speaks: “Wunderbar Mahoro . Du bist ein inspirierender Führer!” We switch to Lima, Peru. We see some of the Core Team Members for South America. Diana speaks: “Excelente! Usted es una inspiración.”

**Oct 6th 2035 7:16 pm, Bangalore, India – Power of Community**

Onscreen we see a percentage of people inspired. It says 83.5% and the number is still increasing. Mahoro continues: “With Sunitha we started in 2019 facilitating sessions for women rescued from trafficking. By the end of 2025 we invited 100 people from Bangalore, who lived on the streets, to live at the facilities of Vidyaranya.

Seventy Sustainable World Community Members inspired their families to take turns in supporting with food. With support of Ramesh, the Founder of Vidyaranya we had transformed this shelter into a next THRIVE Empowerment Center. We trained these youngsters to become Sustainable World Leaders.” Mahoro smiles and says: “You should see them now after 1 year in the Sustainable World Leadership Program (SWLP). You will not be able to recognize them!” On the big screen we see the group of empowered young people in 2025. Hats of to Saba who laid the foundation for the Sustainable World Leadership Program in 2016. [Watch the video.](#)

**Oct 6th 2035 3:47 pm, Frankfurt, Germany – Everybody is Worthy**

“Now, 10 years later, there are no more homeless children in Bangalore. Vidyaranya now has 30 THRIVE Empowerment Centers in 5 states, which host anyone in need. Ramesh, the Founder of Vidyaranya made sure that young or old, all ages are embraced. Everybody is worthy of having their basic needs met!

The work we are doing for rural communities has more than quadrupled and we have started 5 similar projects. I am” Suddenly we hear the 'support music' and 'Raise Hand' symbols are popping up and filling the screen - Jakarta, Indonesia - Paris, France - Sydney, Australia - Shanghai, China.

All the screens around the world now switch to Sydney. The people in a THRIVE Empowerment Center in Frankfurt are watching the big screen. Bang, you see the city of Sydney, bang, you see the Opera House, bang, you see five Core Team Members. Two of them are from the Pacific region.

**Oct 6th 2035 9:48 pm, Kuala Lumpur, Malaysia – Overwhelmed**

Eighteen minutes into the event. In Kuala Lumpur the big screen shows Huizhong and 4 other Core Team Members. Huizhong, the one on the left starts speaking: “Nii Hou! Waduh Mingzuh djou Huizhong. I was born in Hong Kong, but moved to Sydney when I was 10 years old.

First let me say something to Mahoro. I congratulate you and your team. The love for nature and humanity, which I am seeing in all of you, will go a long way. It will make a huge difference, for not only the city you are living in, but also the country and finally our whole world. Do know, Mahoro, that you are not just a hero for India and Rwanda, but you are actually a hero for mankind.”

Huizhong continues: “I have an uncle who has a huge network of volunteers in Bangalore. I will give him your details They can support you. Thank you so much for your passion. I am truly inspired by you!”

**Oct 6th 2035 8:48 am, Belmopan, Belize – More Support**

It is incredible how much we can do in our local communities if we get inspired and work together. Suddenly an unprecedented experience overwhelms Consuelo in Chile. She suddenly thinks: “I can see how these events will change our world. What is happening right here, right now, with Mahoro, will happen in every city and every village around the world. Wonderful great projects will be started by Sustainable World Leaders, funded by White Hats and Dragon Families from the 10 regions in our world. All these projects will be supported by our Sustainable World Community Members; every day people forming a huge worldwide caring community. “

We switch to Belmopan, Belize. On a big Aircscreen we see Consuelo, Zaira, Federica, Fernando, Ricardo & Belen, 6 Core Team Members from Central and South America. We met them in our Empowerment Camp P4 in Bangalore in 2026. [Watch video P4 Camp](#). Consuelo says: “Mahoro, we have 10.000 youth here in Central America who are ready to support you!”

Oct 6th 2035 3:49 pm, Lausanne, Switzerland – Even More Support

Nineteen minutes into the event. We switch to Lausanne in Switzerland. Bang, we see the lake of Geneva, bang, we see a crowd of people, bang, we see Veronique a Sustainable World Leader saying: “Merci beaucoup! Merci beaucoup. Je suis un étudiant. Thank you! Thank you! I am a student at Brilliantmont. I will request our international school with 160 students to support your project. Mahoro, we will contact you tomorrow!”

The atmosphere of contribution is overwhelming. Veronique closes her eyes for a moment, takes a deep breath and tries to let in this powerful experience. On the screen we see Veronique and how many people per country still want to speak and offer support.

Grace and Teresa heard that the next event will have technology from the HeartMath Institute which will guide all people worldwide to synchronize their hearts by breathing in and out with a specific speed. How cool is that?

**Oct 6th 2035 5:50 pm, Dubai, U.A.E. – Leaders in Action**

Worldwide the Sustainable World Leaders are busy switching to all the different locations offering support. They are rigorously trained by Tani, one of the Country Leaders from Bangalore, India.

Every 30 seconds we switch to a new location which offers support. In that time they take care of getting the camera to the person who is about to share, they are correcting the failures of the automatic speech translation, managing the screens, rotating between multiple cameras on the larger locations, talking to the other locations, restoring dropped connections and much much more.

On the big Aircscreen in Bangalore we see 11 of the 1600 amazing Sustainable World Leaders in action. Without these courageous and committed people these events would not have been possible.

**Oct 6th 2035 3:51 pm, Brussels, Belgium - “We will support!”**

We see two students in Belgium using a tablet. David says: “We will support! We will come to Bangalore during our Christmas holidays!” David's response shows us how willing people are to travel and contribute when in a state of higher consciousness; in other words a state of inspiration. More and more people are traveling to the circles where our movable Headquarters has been residing in the last 10 years.

Every location is using different equipment. There are laptops, tablets and quantum phones, which are used for mobile locations. This is for individuals or small groups. Then, there are laptops, desktops and wide screen TV's, which are used to host around 20 people. Next, there are bigger conferences having 20 leaders for managing 2.000 people on location. Today, in each of the 10 stadiums there are a 100 leaders to manage anywhere between 40.000 to 50.000 people.

In these events we mostly switch to locations which have at least one of our leaders as a host so we ensure a high quality in the interaction.

**Oct 6th 2035 3:55 pm, Stockholm, Sweden – Outrageous Request**

Twenty five minutes into the event. Mahoro is looking quite overwhelmed. So far 10 locations have offered support. Bond says: “there are 16.000 more people from a 734 different locations who also want to support your project.” Suddenly we hear the 'outrageous request' music. The huge Aircscreen switches to 'Speaker View' and displays Stockholm, Sweden.

In Stockholm, Tani addresses a hall of 10.000 young people inspired to become Sustainable World Leaders. She says: “I have an outrageous request!” Millions of people immediately become quiet. Full of anticipation they wait for Tani. Then, Tani speaks: “Who wants to support a new project named 'The Transformation of Bangalore'?” People worldwide use their key boards, quantum phones or remote controls and respond. All Sustainable World Leaders are trained to think out of the box and they always surprise us with these impossible projects.

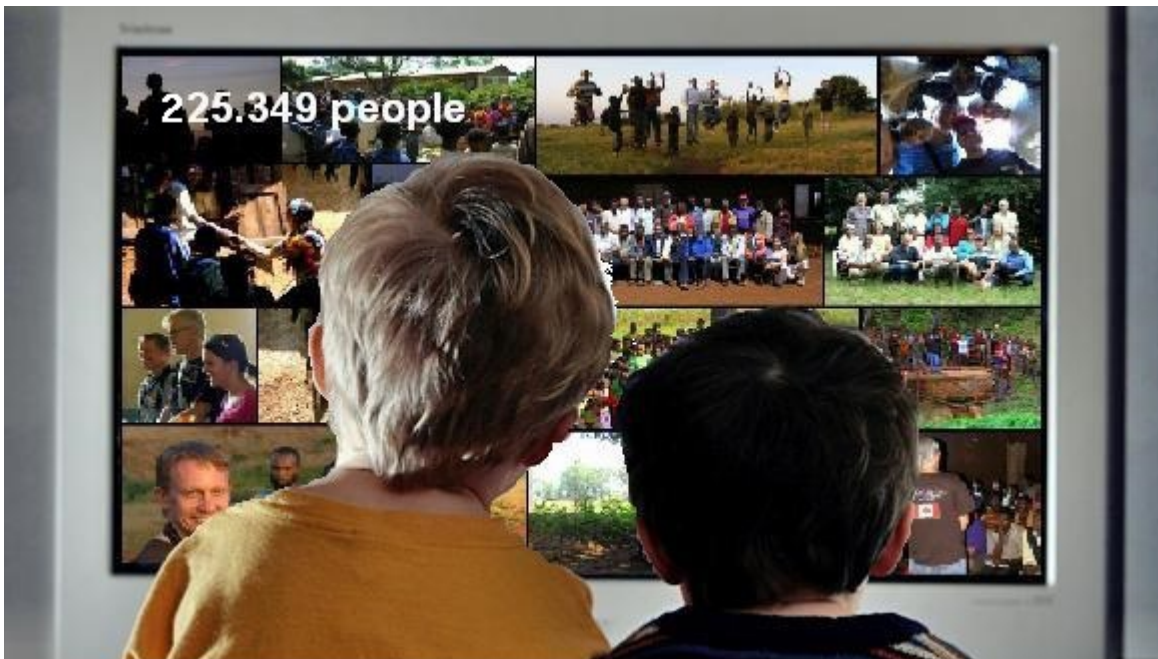

**Oct 6th 2035 3:56 pm, Gdansk, Poland - Worldwide Support**

Jack and Jonathan, the 2 younger brothers of Daniel, one of the Sustainable World Leaders in Poland, are looking at the screen in their home in Gdansk. They are eagerly waiting to start their training and become one of the Sustainable World Leaders.

Among our 10.000 Sustainable World Leaders, we have a few exceptional young people aged around 10 years old. Some are aged in their twenties. Most are in their thirties, forties and fifties. In the end leadership has no age. It is 'who you are being' that matters!

Besides joining the Empowerment Camps in person, anyone of any age can go online and join the activities being done in the camp as Sustainable World Community Member. These activities initially are: dialogue, aerobics, dance, breathing, healing, chanting, meditation, singing, working on projects and watching movies or documentaries.

Squares are popping up all over the screen. A white number is increasing rapidly. In 5 seconds the zoom screen says 225.349 people will support to transform the city of Bangalore.

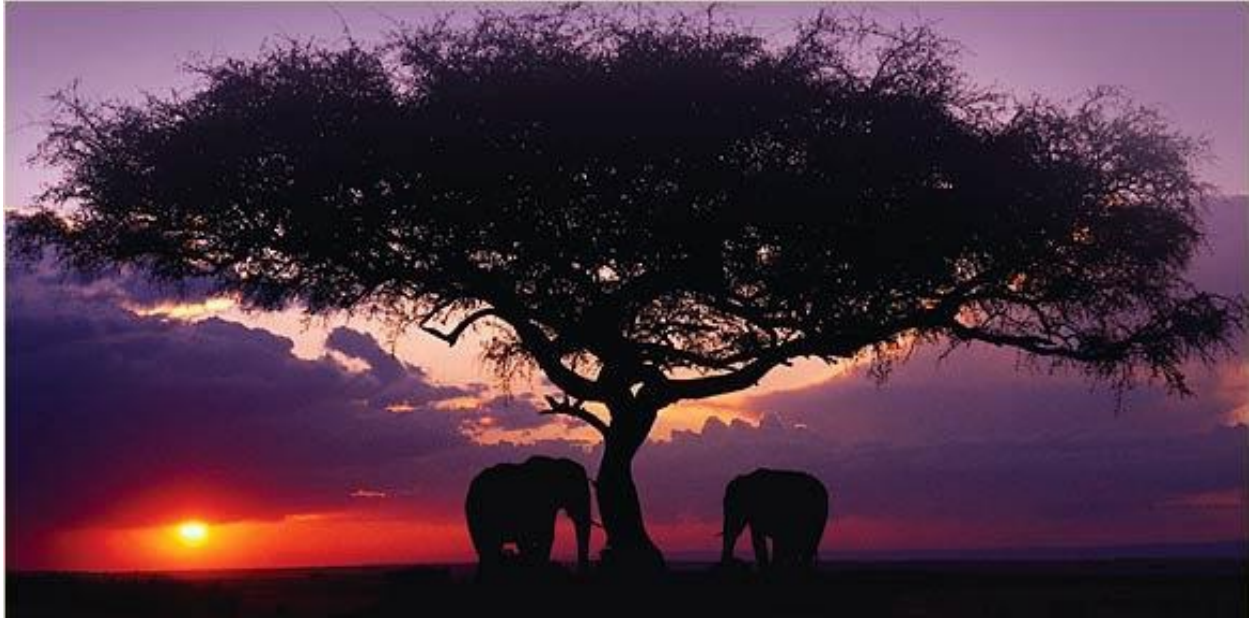

Oct 6th 2035 7:27 pm, Bangalore, India – the World Celebrating

We are 27 minutes into the event. Again we experience the power of unity consciousness. Worldwide 225.349 people will unite to support the transformation of Bangalore. Mahoro is moved to tears. She now knows the city, where from 2019 to 2024 she spent the 5 years that changed her life, will transform into an unimaginable paradise.

On the big Aircscreen we see and hear people cheering on Zoom. Then we see the amount of squares increasing to 200 and they switch rapidly showing thousands of locations worldwide. Then, for one moment they open a 1000 audio channels and you hear the world celebrating life. It is an experience you will never forget. An experience of being profoundly related to all other human beings.

Oct 6th 2035 3:58 pm, Gaborone, Botswana – a Critical Mass

After the initial promotion for the Empowerment Camps the growth is now fully organic. It is the unprecedented experiences of the activities and interactive events we do in the camps and on our online Empowerment Platform that inspire people worldwide. This inspiration calls them into life long action. They reach out to their communities and invite them to join in creating a sustainable world. In July 2035 we had grown to 1600 Sustainable World Leaders. (1000 Country Leaders and 600 Project Leaders) In Gaborone, amongst 15.000 people, 15 year old Seble is seeing a 30 second trailer of how our world is changing. He thinks: "I want to be a Sustainable World Leader!"

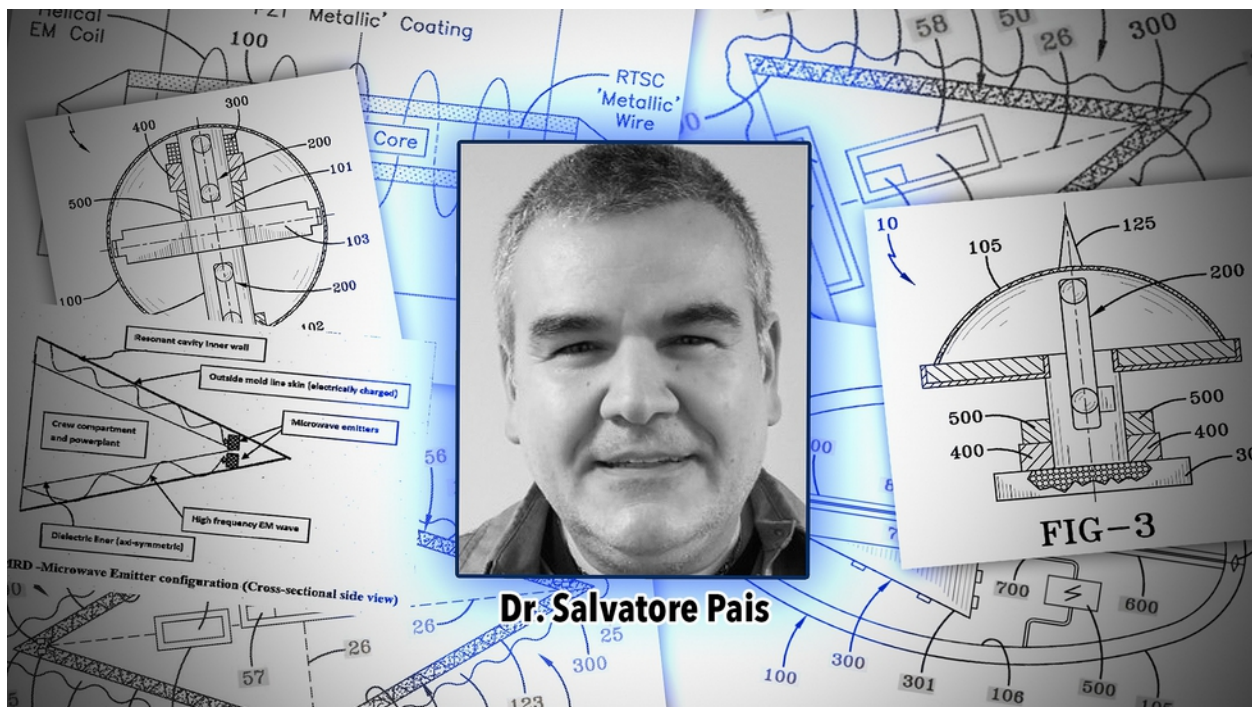

**Oct 6th 2035 8:59 pm, Jakarta, Indonesia – New Energy Solutions**

Worldwide the screens switch to Jakarta, Indonesia. We see Deggory and Chinmay, the two Sustainable World Leaders from Sustainable World - Energy and Transportation Solutions. They are working together with three Sustainable World Leaders from Jakarta to open source another new energy device and an anti gravity community car.

On screen we see the so familiar face of Salvatore Pais. Of course we now know his real name. Then the screen switches. We see a futuristic device and wonder if this the broad range replicator. It is being 3D projected and displayed on all screens worldwide.

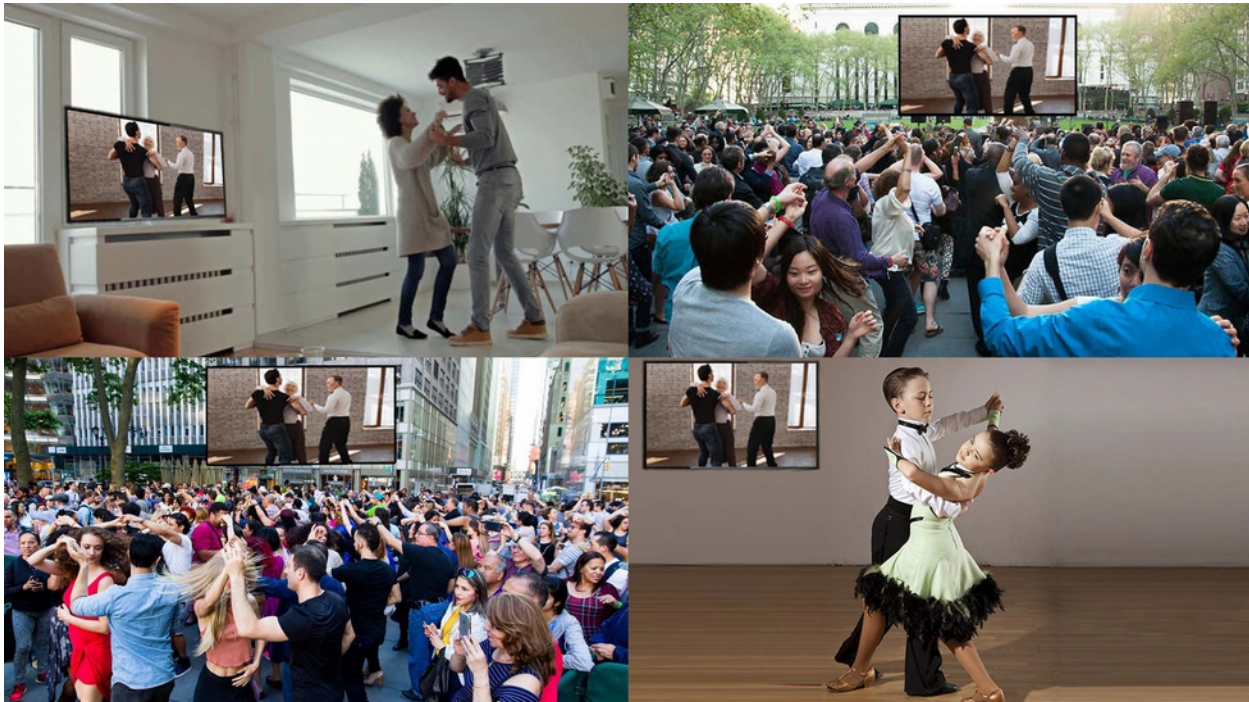

The consciousness of 3.5 million people is impacted. As all consciousness is connected we are also impacting the collective consciousness. Yes! People knowing that this exists brings us another step closer to the worldwide distribution of new energy devices, new healing tech and anti gravity transport to every family worldwide. This will play a major role in creating a world that works for all people by the year 2050.

**Dr. Salvatore Pais**

Oct 6th 2035 6:30 pm, Gojal, Afghanistan - Shared Activities

Two of our Country Leaders are teaching the Sustainable World Tap Step. We have 3.734 locations joining in. Today they are teaching beginners level. In other events they also teach advanced levels. The shared activities are guided by dialogue of the Sustainable World Leaders. This ensures a dialogue which transcends Ego and makes everybody feel safe, respected and valued. George, one of the American Core Team Members asks: "What is present?" Armeena in the Misgar Valley of Gojal answers: "It is a dream come true to dance with so many people in the world!" Her face shows how excited she is.

**Oct 6th 2035 5:05 pm, Kuwait – Sharing our Humanity is Key**

Thirty five minutes into the event. Elise from Gitmo, with outside help from Simone, has inspired two prisons to do an interactive activity in the context of creating a Sustainable World. The activity can have an element of show, but it should also have an element of participation, so people worldwide can join the activity.

Rehan from Al Wafrah, Kuwait is seeing the prisoners do a dance of Micheal Jackson. Just before they start the local host in Kuwait asks Russell, one of the prisoners: "What is present?" Russell says: "I feel a bit nervous." Rehan thinks: "Wow, these prisoners are just normal human beings." One never knows what a moment of inspiration can bring for a participant. This event is the start of Rehan becoming a world renowned activist to heal and release ALL prisoners.

Once you understand that all minds are connected it becomes clear we have to heal all minds in our world. Turning our back to people by locking them up does not solve a problem; it actually creates one.

Watch how our Transformational Interactive Dialogue (TID) Program transformed Leonard in the year 2029 - <https://youtu.be/WLpsQqT9KKQ>

**Oct 7th 2035 0:10 am, Sydney, Australia – Watching Together**

Forty minutes into the event Annie speaks: “We are scheduling watching movies and documentaries together worldwide. Great documentaries will be shown to awaken and inspire humanity. I know my life completely changed after seeing the Thrive Movement documentary of Foster and Kimberly Gamble.

From there I started learning on the Ubuntu Contributionism work of Michael Tellingner, New Earth Nation of Sacha Stone, the Venus Project of Jacque Fresco, the Disclosure Project of Steven Greer, the work of Simon Parkes, Gene Decode, Jared Rand and many others . . . “

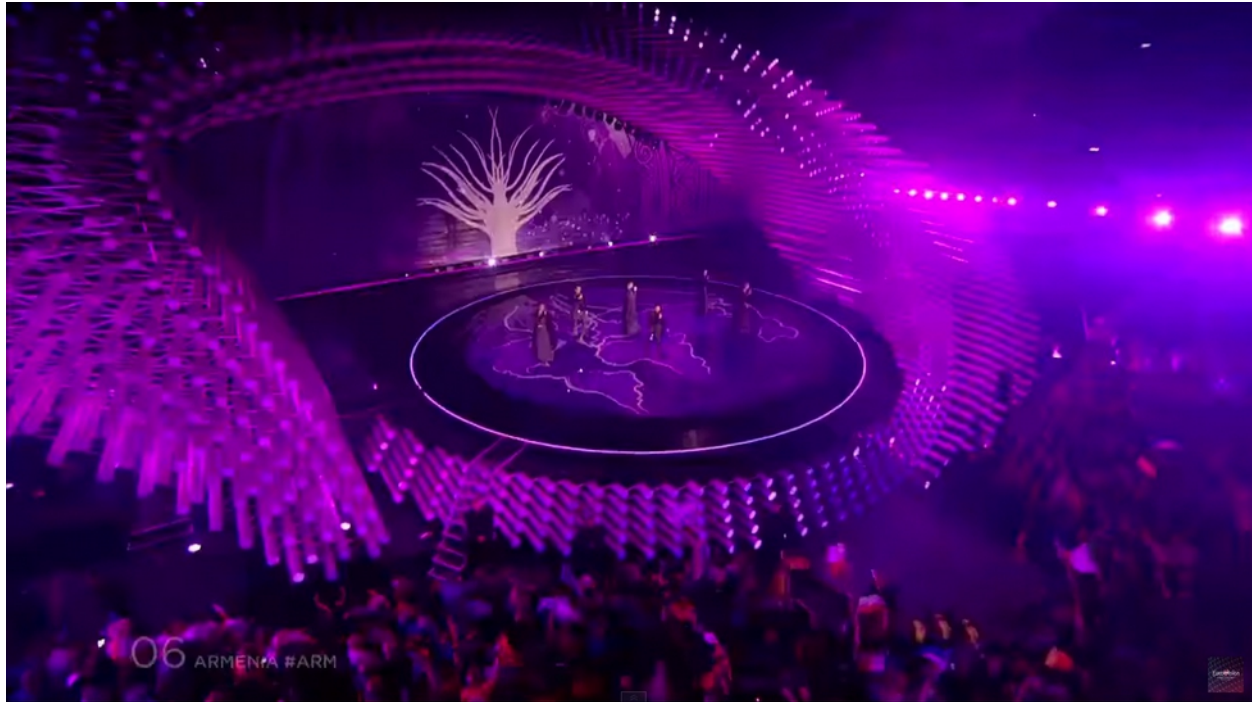

On October 10th 2035 8:00 pm local time in Sydney, we will watch the movie 'Thrive' again. Anybody who wants to join worldwide is welcome. Check out www.sustainableworldproject.com/joinevent.htm for all practicals.

**Oct 6th 2035 4:11 pm, Bayda, Libya – 1% of the World Population**

Forty one minutes into the event. On an Aircscreen in Bayda, Libya Ahmed sees Nikita. Nikita speaks: "I will now show you how powerful we are if we unite. Right now, call your best friends and tell them how much they mean to you. Then invite them to join us. Do it now. I will wait right here!" Onscreen we see people worldwide on their phones. Over the next 5 minutes the amount of participants increases from 3.4 million to 5 million. The new participants are lovingly included by having their friends share what they mean to them in front of a worldwide audience. They immediately experience being a valuable member of our global family.

Five minutes later again we ask everybody to invite their best friends. Within 2 minutes we are reaching 8 million people. If we reach 80 million people then we reach a next critical mass of 1% of the world population. We aim for this to happen with the 6 week Shanghai Act 1 in 2038. [Watch video Vision 2038.](#) The atmosphere is one, Ahmed for sure has never experienced before. Ahmed feels like he is in love; in love with all human beings. He does not know what will come out of this event, but is sure that it will be something very powerful and very positive for our world.

**Oct 6th 2035 6:21 pm, Yerevan, Armenia – Shared Activities**

Fifty one minutes into the event. On the big Airstream we see Narek in Armenia. He is smiling. Narek is happy that he was invited by his best friend Lucy to join this event. After this overwhelming experience of reaching 8 million people, Lucy, the Sustainable World Leader in Armenia, says: "Share with the person sitting next to you or your 'Online Buddy' what is present for you? Take 1 minute each."

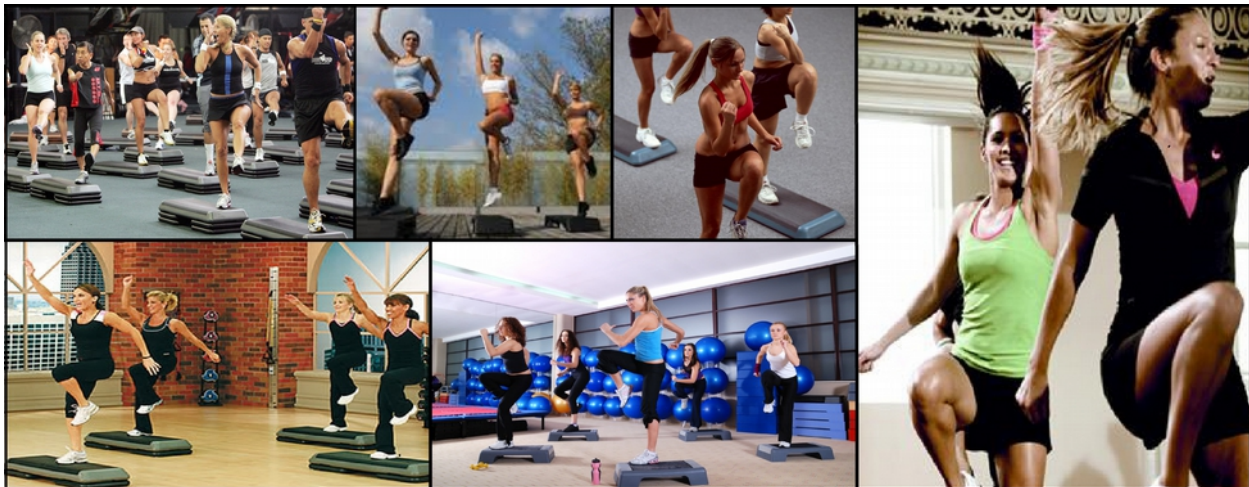

To inspire the audience to participate in shared activities we have a demo of our Sustainable World Unity Step Program. Today in the demo we have 245 Fitness Centers, 512 schools, 3837 homes and 267 other locations joining. We see 6 leaders standing on a platform which is actually a floor screen. It just changed from a big red heart to a purple map of the world. In few seconds the Sustainable World branded steppers, which are used worldwide, will be placed on the 6 different continents. Narek thinks: "Wow! How exciting! I want to join!"

**Oct 6th 2035 10:23 pm, Manila, Philippines – Non Judgment**

Fifty three minutes into the event. A fitness center in Manila, Philippines is joining the live demo of the Sustainable World Unity Step Program. Worldwide online interactive aerobics classes have been started ever since the 3rd Empowerment Camp in 2025.

When we teach the Sustainable World Unity Step Program we always do so online. This way fitness centers, schools, homes and other locations can join. Most locations have one local Sustainable World Leader supporting the global facilitator. That is however not mandatory. Anyone can join the interactive shared activities. The global facilitator is always displayed on a big screen or as 3D hologram.

The context of uniting humanity to create a sustainable world for all and the safe space of non-judgment in the events, are the big drive for people to join the shared activities. We learned from the tremendous growth in our programs that people like it that all our activities are not about being the best. They like it that all shared activities are about being yourself and experiencing joy, love and peace of mind. The activity we do is just the excuse to be together. One world united. All hearts connected!

**Oct 6th 2035, 10:28 am, Antigua and Barbuda – More Activities**

Fifty eight minutes into the event. Bond speaks: “In this event we had meditation, dialogue, dance and aerobics as shared activities. For more information about all the shared activities we facilitate, go online to the website of the Sustainable World Project by clicking the following link: www.sustainableworldproject.com/joinevent.htm

We also have other events where we do singing, chanting and healing. For people who want to become a partner in creating a sustainable world we recommend to keep joining our Worldwide Interactive Events as Sustainable World Leaders or Community Members.

We are preparing worldwide art events and even worldwide walks in nature will be something we can do together in the near future.” Simon in Antigua and Barbuda is laughing. “Walking in nature . . . you mean, swimming in nature!” He is following the event from a very unusual location. Take a look!

**Oct 6th 2035, 9:00 pm, Bangalore, India – From Flash Live to Flash Forward**

The worldwide interactive event is now over. Many bonding questions on family have been answered by humanity. Worldwide people are present to the value of family. We move from this 2 hour Flash Live back into the movie Bond's Mother.

A flash forward is now bringing the audience in the 50 interactive movie theaters to the edge of their seat. For two hours we see a future vision of how our worlds will transform. As the audience just came out of the interactive events they are presents to the possibility of this world actually becoming manifest.

In 50 interactive movie theaters MGM created there is an incredible energy of inspiration and hope for a sustainable world; the world that will work for all people.

Nov 3rd 2035 5:30 am, Santa Monica – A world that works for ALL is in the making
Saturday Nov 3rd 2035 we have the 2nd larger monthly Worldwide Interactive Event. After the October event, Mahoro's project has made a tremendous leap forward. Over 25.000 new Sustainable World Community Members are supporting on the different locations of her project. In just one month 237 buildings have been transformed into new THRIVE Empowerment Centers. People have joined Mahoro's project to feed the minds, hearts and stomachs of people worldwide. We start to understand that hunger is becoming extinct. Not only hunger for food, but even more important, our hunger for love.

We hear that over 23.846 people in 289 cities and villages around the world are following Mahoro's example. After the last event, 237 Empowerment Centers have been popping up like weeds in these cities. These centers were immediately connected to our online Empowerment Platform. This way these local communities could start joining our weekly higher consciousness programs on Zoom. This way more and more Sustainable World Leaders and Members are being awakened and more are being served.

In an uncontrolled organic process, people from around the world are interacting online AND offline with these higher consciousness leaders at the 237 new centers. Many people decide to become official Sustainable World Leaders or Sustainable World Community Members, contributing 2 hours daily or 4 hours weekly, to create a sustainable world. They start going through the Welcome Packs to understand how they can contribute their unique talent to be at service for humanity.

After Tani's request for the transformation of Bangalore, the team of 2600 Sustainable World Leaders has turned this outrageous request into a new project. First step has been the launch of new THRIVE Empowerment Centers to serve the people in the 9 districts in Bangalore.

The White Hats have stepped up too and promised support with distribution of new energy devices, anti gravity transport and med beds. This means that ALL people in Bangalore will have access to this technology within the next 12 months. Bangalore will

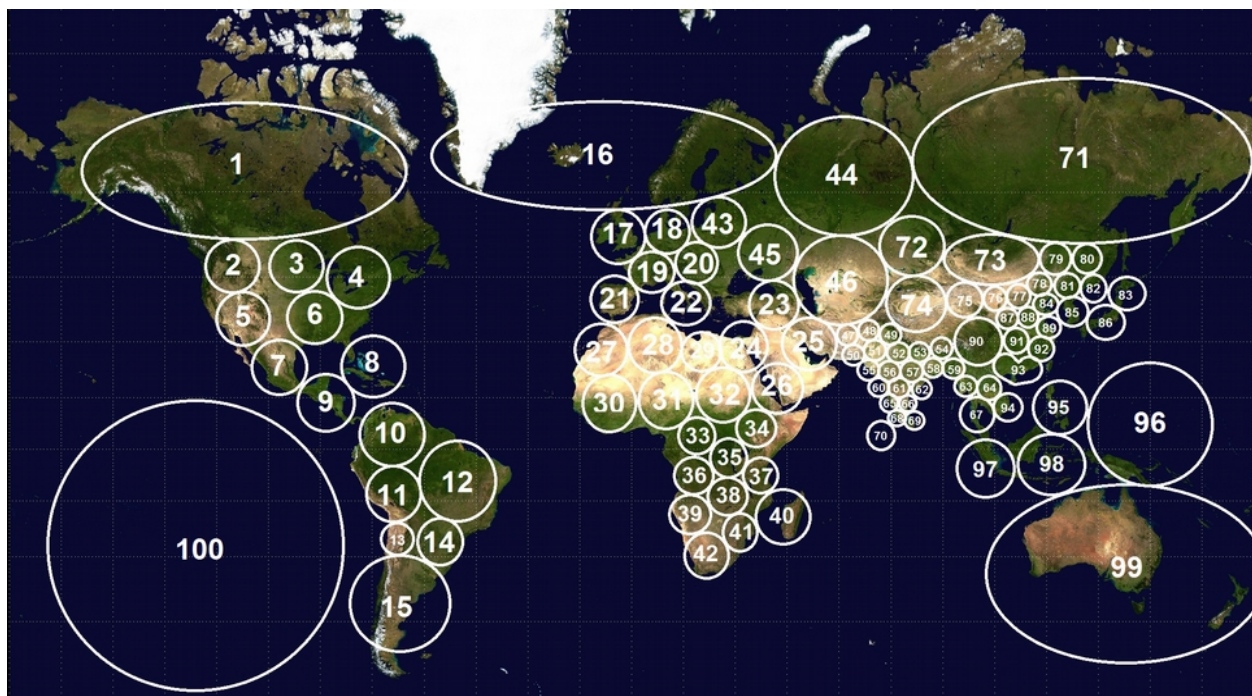

be the first city worldwide where every community will have a Med Bed available in a THRIVE Empowerment Center.

The centers with their higher consciousness leaders play a key role in transforming families, communities by facilitating projects in the 12 sectors of Art, Economics, Education, Environment, Governance, Health, Infrastructure, Media, Relationships, Science, Spirituality and Justice. This will transform the entire city within 3 years.

In Santa Monica, USA, John thinks: "Wow, I can now see the transformation of the world happening!" John understands that in next events more cities and villages will follow this example.

From the year 2025 up to now our Headquarters has moved every 3 months to a 40 regions that embraced around 40% of humanity. In the last 10 years, by inspiring people to step up as Sustainable World Leaders and Sustainable World Community Members, now the foundation has been formed for global transformation. Headquarters will now move to regions 65, 66, 68, 69 and 70 in the next 5 years. This will ensure the transformation of the States of Karnataka, Tamil Nadu, Andra Pradesh, Telangana, Kerala and Goa.

What started in the last quarter of 2024 with Dev's funding tour for a 100 NGO's in 4 States will lead to total transformation of South India by the year 2040. Parallel the same process will be happening to all other regions as we understand that the transformation of planet Earth is not a linear, sequential process. John takes a deep conscious breath and realizes:" A world that works for ALL is in the making."

**Nov 3rd 2035 8:30 am, Lima, Peru – the Start**

Today Mahoro is co-hosting with Bond as global host. We are facilitating 5.126.836 people on 146.839 locations in 212 different countries.

We have now completed 7 Empowerment Camps and 4 more are planned in the next 3 years. The collaboration with Pyramid Valley and Vidyaranya has put these organizations firmly on the map of the world. Worldwide these organizations and their networks are now known for their teachings on sustainability and consciousness. The Sustainable World Project is worldwide known for awakening a deep love for ourselves, each other and our environment.

The event starts. In Lima, Peru it is 8:30 am, in Bangalore 7:00 pm and in Sydney, Australia it is 0:30 am on Nov 4th. On the screen we see Fernando, one of the Peruvian Country Leaders, connecting with the audience in Lima.

**Nov 3rd 2035, 4:32 pm, Moscow, Russia – A Blinking Square**

Two minutes into the event. Mahoro is on the virtual world stage inspiring more than five million people. Onscreen we see the 2 minute trailer of the Sustainable World Community Program. Mahoro thinks: “We have come a long way since the pilot of this program in the years 2019 and 2020 when our Sustainable World Community expanded from 800 to nearly 24.000 members in one years time.”

Teaser of the Sustainable World Community Program - <https://youtu.be/4dtAno30rcg>

The son of Jacob, our Holistic Chef in the Core Team, sees a blinking square on Facebook where Zoom is being live broadcast. We switch to Moscow. Bang, we see the Kremlin, it is almost dark over there, bang, we see a group of 5 Sustainable World Leaders. Immediately, with loud voice, one of them says: “Where is Mahoro? Where is Mahoro, Shilpa, Lulu, Honest and the rest of the team?” Mahoro walks to the front, to the microphone, a little concerned about this Russian leader. Then she dis-identifies of that lower vibration. She sees that he is smiling and truly moved.

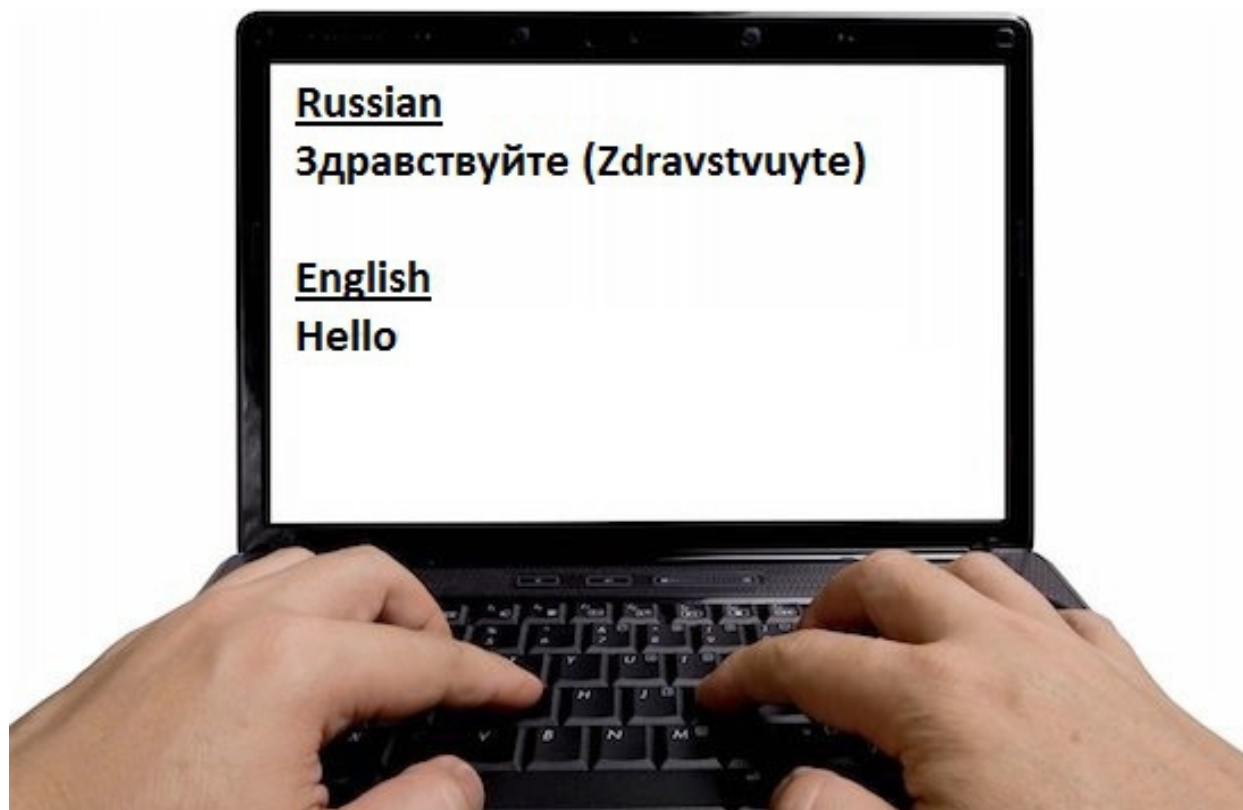

In the background, parallel to the unfolding of the event, a team of Sustainable World Community Members is measuring the quality of our event. They continuously track length of dialogues and have indicators that measure the level of inspiration. Through participation on our Empowerment Platform the friends and families of our members are now fully awakened. Something that all of us desired for so many years.

**Nov 3rd 2035 9:33 am, Havana, Cuba – AI Speech Translation**

Three minutes into the event. Worldwide the screens now displays the Russian leader and Mahoro. He starts to talk. A few seconds later all connected countries see the subtitles in their native language. How is this possible? First an AI module in Zoom generates an English translation of the Russian spoken words.

This is being displayed on two computer screens of two Sustainable World Leaders at the local site. In this example the Russian location. Both leaders correct errors simultaneously. One works from the end of the sentence, the other from the beginning. An innovative software displays real time the changes they both make. Then they send it through as English text to all connected locations. This English text is translated to the preferred subtitles of the receiving Zoom Platform. Mostly the volunteers are not required to make changes as the AI that manages the automatic speech translation has improved so much over the last 10 years. Our partnership with Zoom is once again proven to be a great asset in our project.

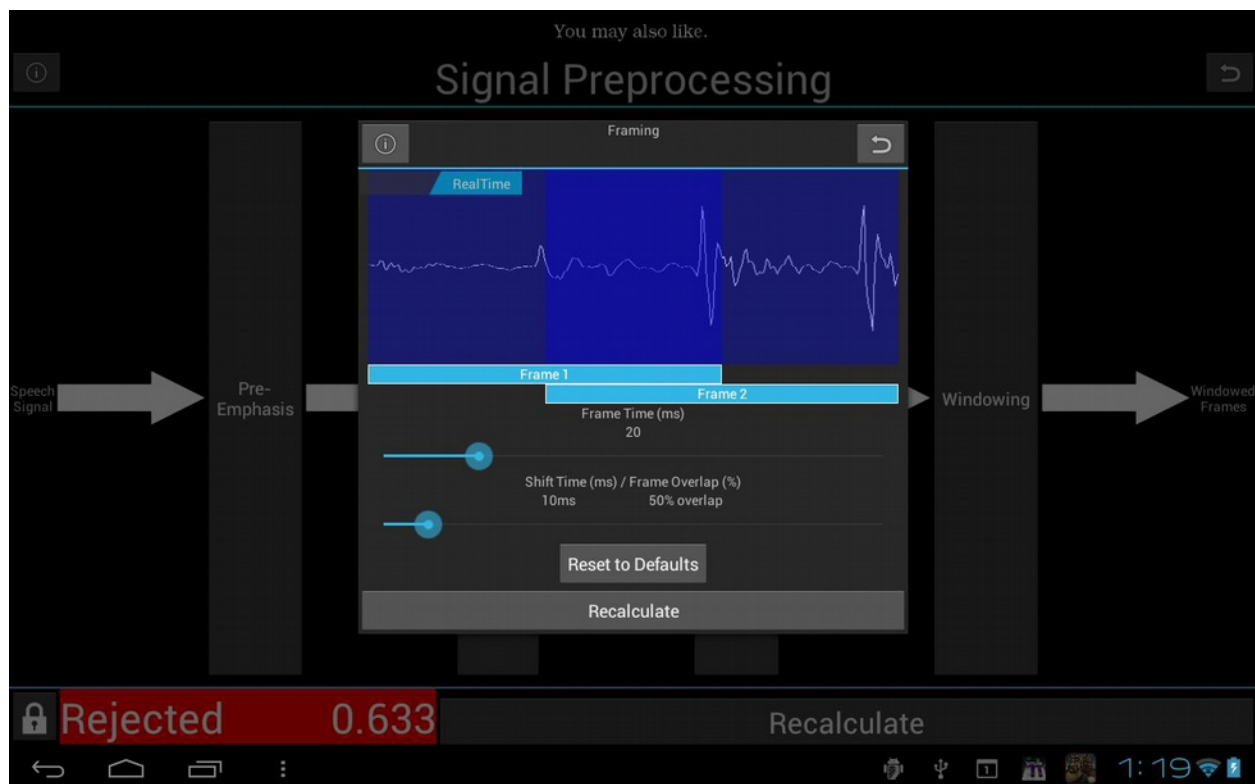

Nov 3rd 2035 2:33 pm, Prague, Czech Republic - Breakthrough

In Prague Dimitri is correcting the Czech which was automatically translated from the English text which was sent to all locations. Then it is displayed as subtitles on the Zoom screen of the people in the Czech Republic. It is a technological breakthrough that truly connects hearts worldwide.

The people who are speaking are always asked to talk slowly and clearly and pause after each sentence. The pause at the end of each sentence also supports people to be present. The whole process for translation is 2 to 3 seconds depending on the skills of the local Sustainable World Leaders . . . and boy oh boy these leaders are way fast.

Zoom is working with many corporations that were developing secret technologies. Now that paradigm has changed and all this new tech is used for the betterment of humanity. There was a tech that could translate any language into another. Zoom is using this now in the Worldwide Interactive Events.

**Nov 3rd 2035 4:34 pm, Madagascar – Mikhail Zolotin Speaks**

In Madagascar Rojo is seeing the team of 5 Russian Sustainable World Leaders on screen. The one with the white checked shirt is Mikhail.

Mikhail starts speaking: "Zdraavstvoechee. Minjaa zavoet Mikhail Zolotin. Spahsieba Mahoro and team!" Overwhelmed by emotion he suddenly stops speaking. Worldwide all locations are completely silent.

All the Sustainable World Leaders have been trained to accept and embrace the so called 'difficult' emotions like sadness, anger, guilt and more. This way they always provide a safe space for other people to fully express themselves. By accepting these emotions people automatically return to a state of Alpha. A state where the mind is quiet so the vibrations of love and joy can enter easily and frequently. This is what causes the powerful space in the events. In the end it is simply the unconditional love of the Sustainable World Leaders that brings this transformation.

**Nov 3rd 2035 10:34 am, Lima, Peru – the Power of Passion**

Four minutes into the event. A family in Lima, Peru is seeing Mikhail and his team on a big screen. Fatima, the 6 year old daughter, hears Mikhail continuing: “I was a student in a very traditional school here in Moscow. After seeing Teaser 3 of the Sustainable World Project, that I is aimed to reach the hearts of young people, I realized I came to this planet with a purpose. [Watch video Teaser 3.](#) I dropped out of school as I was not satisfied with their approach towards young people and joined the 6 week Empowerment Camp in Indonesia that was facilitated in July and August 2032.

For the last 5 years I have been seeing a group of homeless young people. I had often been thinking: “I should support them somehow!” But I never did. Last month I heard you talking, Mahoro. You are my hero for this life time! You are pursuing your passion. I want you to know what happened out of you sharing your passion. I felt an excitement deep inside of me. Something I never ever felt before. I assembled all my friends and asked them if they were willing to support me with doing something for these young people.”

**Nov 4th 2035, 0:35 am, Sydney, Australia – Mikhail Continues**

Five minutes into the event. Simone is at the harbor location in Sydney. She has a vision for introducing perma culture, releasing prisoners, eradicating the farming of animals and bringing meditation to our children. Mikhail continues: "When I asked my friends, all of them said 'YES! Lets do this!'. We reached out to 223 people in our community and 197 promised to support." Simone hears Mikhail speaking and is inspired to take action and also get this much support.

Mikhail continues: "Within 2 days we found an unused office building earlier used for taxation of the people. Last week we started a new THRIVE Empowerment Center. Let me tell you Mahoro why I want to thank you? Yesterday, I was walking in the city and I met that same group of young people that I have seen so often in the last 5 years. They reached out to me and asked me for money. One of my most valuable learning of attending Empowerment Camp 5 has been the understanding that every communication is either an expression of love or a request for love. I understood that their request was actually a request for love, not money. What they actually wanted was a safe place and someone to tell them how wonderful they are."

**Nov 3rd 2035 11:36 pm, Pyongyang Korea - Empowering Youth**

Six minutes into the event. Mikhail continues: "I always wanted to give these young people a place where they could discover how precious they are. Yesterday, finally, I could tell them what I have been wanting to say for so many years. I looked into their eyes and said: "You are the most talented, the most interesting and the most extraordinary person in the world. You are capable of doing amazing things. You have a unique gift to contribute to our world. I want you to know that many people in many countries care for you. We have a center and, if you want to, you are welcome there every day and if you like to, you can even live there."

The spark of hope in their eyes gave me the most profound moment I ever had in my life." Mikhail starts laughing and crying at the same time. Kyung from Pyongyang in North Korea feels tears coming up too. He thinks: "This Mikhail guy is awesome!"

**Nov 3rd 2035 9:07 am Caracas, Venezuela - “Sharing is the Key”**

Worldwide people go wild, cheering and shouting. Mahoro speaks: “On behalf of all young people worldwide, who now live in TEC's, thank you Mikhail! Who else wants to speak a few words of gratitude to Mikhail” We switch to Kenya where Rose speaks: “God bless you Mikhail.” The Aircscreen switches to Sweden where Par Eriksater speaks: “Tusen gånger tack Mikhail, 1000 times thank you Mikhail.” We switch to Montreal, then Auckland and next San Francisco. We hear people saying: “Thank you Mikhail!” in many different languages. Paris: “Merci Beaucoup.” Caracas: “Gracia.” Venice: Gracias. Germany: “Danke schon!” Holland: “Dank je wel. Mumbai: Hazar Bar Shukria.

The slogan “Sharing is the Key” is displayed on all the Zoom screens and live broadcast worldwide on YouTube and Facebook. What a wonderful touching beginning of this second Worldwide Interactive Event.

Isabella from Caracas thinks: “I wonder what the Sustainable World Leaders will create next! Hmm, what am I going to contribute to create a Sustainable World. Lets think about that for some time.”

Nov 3rd 2035 7:38 pm, Thimphu, Bhutan - An Update of Charlene

Eight minutes into the event. Puran in Thimphu, Bhutan is watching a big Aircscreen. On the screen he sees Charlene, the girl who had cancer. Charlene speaks: "One day after the October event something amazing happened. I received a phone call from a whistle blower named Corey. Corey said: "I have been working in one of these black projects and I am going to make you a promise. I promise you that I will get a Mobile Med Bed transported to your door step within the next 24 hours. I have already made the request to my contact at the Anderson Air Force Base in Guam."

"I had showed him the video of the October event. He took one conscious breath and said: "Consider it done!" And there is one more thing Charlene. One more thing I want to tell you: I love you. I am there with you". Charlene is deeply moved by Corey's courage, as she is crystal clear he has been taking the risk of losing his life just to save the lives of others, hers now included."

**Nov 3rd 2035 2:39 pm, Algiers, Algeria - an Update from Gitmo**

The Aircscreen in Bangalore switches from the default Zoom look to a desert in Algeria. We are swept away by beautiful enchanting music. Onscreen we see the desert, some camels and next the camera takes us with incredible speed to a movie theater in Algiers. We switch back to the default Zoom look. Onscreen, in speaker view, we now see Sam and Elise, two prisoners of Gitmo, eating a yummy meal.

Sam, the best friend of Elise, who we saw in the last event, starts to speak: "Today Simone came to the prison to make us a fancy 5 course meal. She said she was inspired by us because we are standing for the transformation of all prisoners worldwide." All of us see a clearly empowered Sam. She smiles, pauses and then continues: "I have a 104 prisoners joining this event. Last week I reached out to 12 more prisons in the US and 11 of them have started the preparation to join the next Worldwide Interactive Event in December. Next week I will start reaching out to prisons outside the US. I am super excited as I know that this will take of in 2036!"

On the Zoom screen we switch to a 100 squares and we see and hear people cheering worldwide. They are so inspired seeing these three very cool ladies! Pablo in Honduras suddenly gets a glimpse of a vision. A vision that shows not only the healing of the minds of people in prison, but also the healing of minds that had put people in prison. Pablo knows that all minds are connected. He knows that therefore we need to heal ALL minds. All people connected to the event are getting a glimpse of a vision of a world where a new non-violent mindset strongly founded in the 6 heart virtues of appreciation, compassion, forgiveness, humility, understanding and valor is creating a safety humanity has not experienced before.

**Nov 3rd 2035 7:40 am, Puerto Barrios, Guatemala, Nikita**

Ten minutes into the event. Right next to the Gulf of Honduras we find Puerto Barrios. Carlos is watching the big screen in Albacinema, a local movie theater. He hears Nikita joking: "In the next shared activity we are going to give all of you an unprecedented experience." He makes a funny face and says: "So, what's new about that?" He starts laughing and laughing and laughing. The whole world is joining in.

The big screen switches to locations worldwide. People are falling off their chairs laughing. People are gasping for air laughing. Dozens of audio channels are opened, synchronized with the switching squares on the big screen. We hear a united family laughing like never before.

It is **the** most liberating experience I ever had. There is a connection and a letting go of the past I am not able to describe here. It is like all hurt from the past has completely vanished. I am experiencing a new freedom. Nikita has already given us the next unprecedented experience.

**Nov 3rd 2035 Greece - Preparation for the Sitting Down Healing**

Nikita pulls himself together: "Lets switch to Simone and Brittany, who are currently promoting our Healing Program in Greece." On a parking lot in Athens we see both the ladies on a huge Airstream. Brittany speaks: "Lets create a safe space for doing the healing work. In our current society we have forgotten what true love is all about. We have been deeply conditioned by media, movies, magazines, songs, books and more. What we have learned about love is mostly the Ego's version of love, which is not love. True love is the unconditional acceptance of what is. You can experience it at any given time with any given person. Touch can be a powerful access to love, but this is even more dangerous to talk about." Brittany pauses, folds her hands, gives us a big smile and then continues.

"So lets enter the danger zone." she jokes. "Lets talk about touch. Observe your mind. When someone touches you isn't the first Egoic reaction for a lot of ladies: "What do you want?" and for the guys: "Heeey, I know what she wants?" What **we** are talking about is an unconditional touch. It is without agenda. So before you get excited or afraid, lets set the rules. We will start doing a sitting down healing for rookies! We will only work on the head, the shoulders, the hands, the knees and the top of the feet."

**Nov 3rd 2035, 1:42 pm, Birmingham, UK - Sitting Down Healing**

Twelve minutes into the event. Jill from Birmingham, aged 43, is sitting next to the 19 year old Jonathan. Jill had never met Jonathan before. However, in this event, she has already interacted a 3 times with him in the pair shares. She has started to feel more safe. Before the healing starts, we do a round 'What's present'. Jill says: "I was thinking that you might be thinking: "Oh, here I am sitting next to this middle aged house wife and I have to give her healing. Why am I sitting here?". Jonathan smiles and calmly says: "No, actually I was thinking: "I hope she trusts me and will not see me as immature."

Jonathan is very present how sacred it actually is to touch someone. It literally builds a connection. Very carefully he is placing his hands on the top of her head. Jill feels his gentle touch and thinks: "He is very careful! I like that!" Slowly Jill starts surrendering and by the third position on her shoulders she starts to experience something profound.

The world slows down. It is difficult to describe. A wave of love engulfs Jill. It changes her forever. "I have never ever felt like this before!", Jill thinks. Jill enters a state of unity consciousness and tears are rolling down her cheek. Finally life makes sense. This is what I have been longing for my whole life. From the deepest core of her being Jill makes a commitment to a new mission. A mission to have each and every human being on planet Earth experience this.

**Nov 3rd 2035, the World – Five Million Hearts Connected**

Twenty minutes into the event. The Airstream now displays the Zoom platform with 3 rows of 5 squares showing different locations where people are doing the healing. The squares keep on switching to the different locations in our world.

We hear people's favorite healing music. We see young people, elderly people, people of different cultures, countries, background, color and religion, connecting with their brothers, sisters and themselves. We see people sitting down and we see people laying down. Most people give healing to one another, some people are giving healing to their pets and some are giving healing to themselves. We see a world expressing love. We see a world transcending the illusion of separation. We see a world united as one.

I have never felt so connected. I have never felt so alive. We CAN love one another. We CAN trust one another. What will be the impact of this event in our world? What if we could feel this way every day? What if 80 million people would experience this? I now understand how a critical mass of 10.000 Sustainable World Leaders can change the world. I am in deep awe of their courage and commitment. What a heroes!

**Nov 3rd 2035 – Mahoro is making the World a Better Place! Again!**

The Aircscreen switches to Bangalore. Mahoro starts speaking: "I am starting a new project with Baskar, Raju, Anil and Komala, the State Leaders from the states Karnataka. Tamil Nadu, Andra and Telangana. I want to make the world a better place by having all people, who want to, have their own sacred place to live. I want to change the world by creating thoughts and actions of love at a whole new level.

Shelter is a basic need that is unfortunately denied to many human beings. Here is the action of love we will take. We are going to create and distribute mobile homes for each and every person that would like so. The homes will be made of sustainable materials and will integrate into the environment seamlessly. It is our commitment that in the year 2036 every person in Bangalore has a home they can call their own. These homes will be sustainable, comfortable and movable.

Through this project we WILL also inspire 5.000 people in India who will join hands in making these homes available in all other states. By the year 2038 everybody in India will have a home they can call their own. As all of us are strengthening our faith in this movement, we will inspire the world. I commit that all people worldwide will have a home they can call their own by the year 2040." Mahoro pauses, inhales and says with a power I have never heard before: "Now lets start making these beautiful and happy homes! Who is with me?"

Nov 3rd 2035 – the Sustainable World Song

John, our Higher Consciousness Communication Team Leader from the US, has our unique version of Zoom switch to 'Audience Experience' mode. John enters the parameters 5, 5, 500, 25 and 8. For 8 seconds 25 audio channels are unmuted and we see 5 rows with 5 squares per row and every 500 milliseconds they switch to another location. We get a 'feel' of the world celebrating this meaningful new project of Mahoro.

Onscreen we see a white number rapidly increasing. It displays the amount of people who are committing to support. In just 8 seconds it says 174.862 people are committing to support this project in whatever way they can. Mahoro is almost fainting as even she did not expect this much support. The Empowerment Platform is as usual exceeding all expectations.

Fifty minutes into the event we see the Aircscreen switch to a view with 9 squares. Karthik from Mumbai is saying: "In more than a 100 different languages 5.683 musicians will now sing our Sustainable World Song." Worldwide preparation for the Shanghai Act 1 in 2038 is nearing completion. Four more Acts will follow every 3 years up to the year 2050. These Acts will cause Quantum Jumps in the Collective Consciousness.

We see and hear musicians in front of famous landmarks. We see them with their instruments in beautiful nature. Hearing the music and seeing the beauty of our planet changes people's mindset instantaneously. We hear French, Spanish, English, Hindi

and more. We see choirs, groups, duos and soloists. We see different faces, hear different styles, but the message is always the same. We are one! Loving the other is loving the self. Taking care of nature is taking care of the self. Once more we celebrate diversity and oneness.

The result as always is an unprecedented experience. We are reprogramming ourselves. We know that the power of this song will transform the mindset of millions of people. A world that works for ALL is in the making!

**Nov 3rd 2035 – Ending of the first hour in the event and Beginning of a New Era**

Fifty five minutes into the event we are getting another unprecedented experience. Bond asks: "Can all locations dim their lights?" The next 10 minutes the audience worldwide is overwhelmed by people expressing their love. While fireworks, a light show and powerful music from 5.683 musicians from all over the world, already touched our soul, we now see the Zoom screen switching and we get to witness all the beautiful people in our world.

For over 10 years we have been beginning and ending our weekly Zoom sessions with people expressing themselves in their local language. The 15 second 'Intentional Introductions' and the saying "Goodbye" in all the different languages always guaranteed some excitement and connection.

Now in many different languages we hear people say: "I love you, thank you for being in my world!" The screen switches to Paris. "Je t'aime!! Merci d'etre dans mon monde!" Frankfurt. "Ich liebe dich, danke schon das Sie in mein welt sein!" Bushehr, Iran. Shekoo speaks: "dooset daram motshakeram azat bara inke doyaye mani." Lima, Peru. Six year old Aldana speaks: "Te quiero, te doy las gracias por estar en mi mundo!" Jana from Slovakia: "Lúbim Ťa, ďakujem že si v mojom svete!"

**Nov 3rd 2035 - What is your Legacy?**

The Core Team with some of the Senior Founders, Funders and Friends are all sitting quietly with a big smile on their face. We are taking a moment to look into the eyes of each other. Their names are Mahoro, Shilpa, Sunitha, Honest, Lina, Simon, Becky, Nathalie, Tom, Love, Joy, Peace, Grace, Lulu, Foster, Roxanne, Alesha, Michael, Sacha, Megan, John, Kenny, Teresa, Steven, Alex, Kimberly, Faith, Song, Surrender, Po, Jacob, Josh, James, Kelly and many more. We all feel deeply grateful and humbled by yet another unprecedented experience. Our vision for people to become Higher Consciousness Leaders is unfolding and we have just seen the impact in our world.

We feel confident that these Sustainable World Leaders can indeed create a world that works for ALL. With deep awe and humility we say thanks for being able to be an instrument in freeing humanity from suffering. What better legacy can one leave behind.

On the Zoom screen we see our beautiful planet. A sustainable world is arising. What a blessing. Finally life makes sense!

**Nov 4th 2035 – the Day After the Event**

The day after the healing session Jill from Birmingham experiences a very different day than normal. All her interactions since the healing session have been grounded in an undescrivable peace, love and joy. Her colleagues keep on asking her: “What happened to you?” Again and again she shares about her healing experience. All her colleagues are telling her that for sure they will join the next event on Saturday December 1st 2035.

Now I know, that Jill is not the only person sharing her experience of the event. I guess this means that next month we will have many more new people joining the event!

The atmosphere in Bangalore is incredible. It is a city inspired. Ramesh observes that walking in the city is a different experience since the November event. He thinks: “Why do I see so many people smiling?” It looks like everybody I talk to has heard of the November 3rd event. What is next; beyond a city inspired? A state inspired? A country inspired? A world inspired? And what will come from that?”

We hear a buzz in the media outlets of Sustainable World Media about our two interactive events in October and November. The hearts of millions of people worldwide are being connected. The 'Sustainable World' brand is connecting millions of people worldwide. I think next month we will easily exceed our objective of 8 million people and I know that within few months we will reach over 10, maybe even 20 million people. Latest 2038 we should reach our next critical mass of 80 million people when we launch the first Shanghai Act . This is 1% of the world's population.

As the demand for the events is increasing so strongly, we are looking to schedule these events on a weekly basis in 2038 and a daily basis in 2041. What will happen in the world in 2041 when 800 million people daily experience profound love. Who will they be? What will they think? What will they say? What will they do and how will that impact our world. I guess we will see in the months and years to come. [Watch video Vision 2020 to 2050](#)

Nov 5th 2035 – Two Day's After the Event

The November Worldwide Interactive Event is over. This event was only possible because a small team of people supported the soft launch from 2015 to 2025. They were the ones who lived from the paradigm 'First I Believe and then I See'. Most people live from the paradigm 'First I see and then I believe'. The first group were the extraordinary people who had the vision and perseverance to nurture the project into existence from 2015 to 2025.

Take a look at how it all started. The first visits to Pyramid Valley in 2016. How Saba connected with the Founder Brahmarhi Patriji. How all of this led to the first critical mass actions in July 2034. Watch this [Video with the Soft Lanch and Start](#)

Do you believe before you see? Step up and join the team. Lets create a world that works for ALL people. Click the next link to join.
