The Sustainable World Leadership Program is uniquely setup as part of the Sustainable World Project. In our Facebook group named 'Sustainable World Community' (link - <https://www.facebook.com/groups/725583880829287>) we invite people who are interested in transforming their community, country, continent or world. Through a 50 step selection process they can become a Core Team Member, Country Leader or Project Leader in the Sustainable World Project. (a Sustainable World Leader)

For becoming a Sustainable World Leader we first ask people to go through 5 Welcome Packs that contain steps 1 to 37 of a pre-selection process. In the 5 Welcome Packs we provide you information so you get to know us. We also ask you to comment on our Facebook posts so we get to know you. In Welcome Pack 5 you will find the application process for continuing your journey to being a Sustainable World Leader. It involves answering some simple questions. Lets start today with getting to know one another.

In our Facebook Group you will also find other people who are in the pre-selection or selection process for acquiring a role in the Core Team or otherwise. You will also find other leaders who have already completed the 5 Welcome Packs and have joined our official SWL (Sustainable World Leader) Selection Group on WhatsApp. They are active in the Facebook group to support you. Others are, just like you, still in the pre-selection process.

UPDATE FROM MAHORO

As I understood that this program will empower me to transform my country I made a 5 year commitment and relocated to Bangalore, India in 2019. Shilpa, Richard and I work on location here in India. Mian, Honest, Zafar, Zaira, Denzel, Mel, Fernando and many others work remote and join online from their respective countries. All options are valid. You can choose what works for you.

This team of 10 people from 7 different countries has committed to unite the total of 50 Core Team Members, 1000 Country Leaders and 9000 Project Leaders in the next years to come. Are you a next Sustainable World Leader? Are you inspired by playing a key role in transforming your community, country and world? Then commit to just completing this first Welcome Pack.

I will now introduce the Founder of the Sustainable World Project. He will be your Empowerment Coach when you have completed this Welcome Pack. You will then be added to our official WhatsApp group with all the Sustainable World Leaders (Country Leaders, Project Leaders and Core Team Members). Here you can have your one month tryout.

I have never met anyone like Richard. He will first make you feel comfortable and will then invite you to claim more power as a leader. This is all inside a commitment to empower you into being all you can be. In the end he accepts you without conditions. Richard's commitment is to help you discover the potential you have inside. I have experienced this myself. After more than 5 years of participation I now know we can change the world.

RICHARD'S INTRODUCTION

He was born in the Netherlands in 1969. He graduated top of his class, Cum Laude, as Civil Engineer. For 5 years he was the CEO of a European IT Company. In 1997 he participated in a Reiki weekend. A glimpse of unity consciousness changed everything.

In the year 2000 he decided to sell his house, retire from his company, return his 2 cars to the garage and buy a one way ticket around the world. In 2001 he left all behind to pursue an impossible dream. A dream of creating a world that works for ALL people. This was the start of a 50 year project to transform our world.

Now in 2023 he is the Founder of the Sustainable World Project. A 6.000 documents, 4.000 graphical representations and nearly a 1.000 video files attempt to describe our objective. Our objective is to witness the end of poverty, war and environmental destruction by the year 2050. We will achieve this objective by addressing the root cause of all violence. Violence stems from our lower egoic state of consciousness. To raise our state of consciousness Richard has developed a 50 step plan that is uniting a critical mass of 10.000 Sustainable World Leaders.

These leaders will be supported by every day people, in a role as Sustainable World Community Members. As of 2023 we are at step 11 out of 50. A 1 year pilot of the Sustainable World Community Program in 2019 had the movement grow from 800 to 23000 members worldwide. In May 2023 the Sustainable World Leadership Program was launched. Now, in November 2023, we are on the verge of launching our Sustainable World Community Program. This will have the movement grow to over a 100.000 members in the next 2 years.

Through our weekly online programs our leaders are inspiring heart centered habits for humanity. Using ancient wisdom and the latest consciousness science they inspire the six heart virtues of appreciation, compassion, forgiveness, humility, understanding and valor. These virtues are awakening unprecedented experiences of connection, joy and inner peace. These virtues are inspiring humanity to unite; one worldwide family ready to care for one another and share with one another.

Richard has spent nearly a quarter of a century to prepare, test and develop the Sustainable World Project. In that process three times he lost all his money. Like Nelson Mandela he has been falsely accused, jailed, abused and threatened to be killed. He has been jobless, homeless, broke, depressed and suicidal. He has faced death 6 times, gave up 8 houses, 3 cars, his family, his country and sometimes almost his sanity. ;) Inspired by the compassion of Mother Teresa and the non-violence of Gandhi he says: "I do not mind. I am willing to give my life for something which can assist humanity to a sustainable world."
