

WELCOME PACK DAY 2
SUSTAINABLE WORLD PROJECT
STEP 5 TO 7 OUT OF 50

Welcome Pack Day 2 – Young World Leader Facebook Group

Welcome again to the pre-selection process for becoming a leader in the Sustainable World Project. My name is Mahoro Oliver. I am one of the moderators in our group on Facebook. Today you will get more information.

Richard keeps following the Facebook group and he sees each and every communication. He keeps telling me that he is very inspired seeing so much potential getting united in one group.

Today I will share more about the program and what value you can get from this program. The pre-selection process you are in is to find a total of 50 Primary Continent Leaders, 1000 Country Leaders and 9000 Project Leaders. These leaders will be continuously trained through our online Empowerment Platform, our Primary Leader Training and our Empowerment Camps.

Initially you will be trained by Richard Alexander. Later we will give you exposure to many other leaders who are all working on creating a sustainable world. In this training when you choose to become a Primary Continent Leader, you will travel to all continents.

The focus in the first few camps is for you to be trained yourself. Later the focus will shift to you learning how to co-facilitate training for other leaders worldwide. In the next picture you see the 15 scheduled Young World Leader Empowerment Camps. In 2021 and 2022 we start with 4 Pilot Camps P1 to P4. From 2023 to 2028 we have scheduled 11 larger camps.

THE BEST THING THAT EVER HAPPENED TO ME – STEPPING UP TO CHANGE THE WORLD

I am deeply touched, moved and inspired by the vision of the Sustainable World Project. A world that works for all people by the year 2050. From January 2018 onward I have been on the online Empowerment Platform. This program is truly changing my entire life. I have never ever felt this way. I have never ever felt so alive, inspired and empowered. As I connected myself more and more with the program I have been gaining so much wisdom from my fellow Primary Leaders and our coach Richard Alexander.

My name is Oliver Mahoro. I am 30 years old. I used to live in Kigali, Rwanda, Africa. Now I live in Bangalore, India. In the Sustainable World Project, I am the 1st Primary Continent Leader for Africa. My mission is to inspire 4.000 Sustainable World Leaders by October 2025.

Before my official training in India started I have already gotten a taste of so many lessons to learn. Some of these lessons include visualization, manifestation, meditation, integrity, non-judgmental listening, non-violent communication, how to be in a state of higher consciousness and how to be self-aware. I realized that most people in our world do not have access to such lessons. These lessons are so important to gain power in all aspects of our daily lives. I am talking about learning the skills to create fulfilling and intimate relationships, the courage to pursue your dreams, to come out of the money rat race and shift from surviving to thriving, to travel the world, to truly contribute to your fellow human beings and to experience true power, freedom and self expression. I feel so lucky to work along in such a meaningful project.

I still have many lessons to learn, but I believe that surrounding myself with other leaders and a Coach that all inspire me to be the best version of myself, is the greatest gift I can give myself. I also want to give this gift to you.

You are so much more powerful than your mind allows you to experience. You are so much more wonderful, worthy and important than I am able to express right here.

I now understand what Richard has been saying. Ten thousand people will be enough to change the world. We will show you how. I am now working side by side with Richard at the Sustainable World Project Headquarters in Bangalore, India.

By Dec 2022 50 Primary Continent Leaders will be selected who will initiate and accomplish the impossible. Step up as a leader and become a partner in creating a sustainable world.

Our objective is a world that works for all people by the year 2050. To achieve this we are creating a first critical mass of 750 people. From Monday July 6th 2026 they will daily, for one hour, enter a state of Unity Consciousness. This will happen at 1:30 pm Sidereal time in the Buddha Maitreya Pyramid at Pyramid Valley (see photo below) near Bangalore, India. This critical mass will be big enough to raise the collective consciousness from egoic to unity consciousness for one hour time. This will impact each and every mind in our world!

This project has been prepared for 15 years since the year 2000. From 2015 to 2020 we completed the 5 year soft launch. Now in 2021 we are implementing our work in 212 countries worldwide. What we do has never been done before. As well Ancient Wisdom as the latest consciousness science validates that we have to change the inner world first, then the outer world will reflect our new inner world. In other words we have to shift our collective mindset or raise the collective consciousness. The Egoic consciousness or old selfish mindset is the root cause of the suffering in our world. If we change our mind, we change our world!

From 2028 onward a total of 10000 Sustainable World Leaders will play a key role in facilitating the Sustainable World Project. If you are SERIOUSLY committed in using your life to bring peace and abundance to our world, then read along.

VALUE YOU CAN RECEIVE IN OUR PROGRAM

1. You will receive unique Values and Skills which are NOT taught mainstream. Some of those skills will be Non Judgmental Listening skills, Higher Consciousness Leadership skills, Visualization Skills, Non-Violent Communication Skills and Manifestation skills. Some of the values which will be taught are Being Compassionate, Genuine, Playful and Powerful.
2. We will share information with you about ancient wisdom and the latest cutting edge consciousness science like Pyramid Power, Sidereal Time enhancing consciousness, the Extended Maharishi Effect and more. We will share our research into the current disclosure of secret covert technologies like new breakthrough energy solutions, anti gravity transport solutions, teleportation, inter stellar travel, off planet projects and more. These technologies will change the face of our world in the years and decades to come. This information is not much found in mainstream media as of now, but is of vital importance for you as you will be the leader of tomorrow.
3. We will share our research into the true history of our world, how the world has been governed by the few elite, how right now we are transitioning into a new golden age AND what role you could play in this transition.
4. Our project does not only have a one time impact but also a sustainable impact. As you start bringing change to your country we will support you to launch a THRIVE Empowerment Center. Here you empower the local communities. We will connect the members of your center online with the world's most powerful youth leaders and other international partners who are working side by side on creating a Sustainable World. [the Thrive Movement, Ubuntu Contributionism, the Venus Project, the Disclosure Project, the Sedona Connection, Heart Math, Humanity's Team and more]
5. If your heart and commitment is huge, you can be selected to represent your continent as one of our fifty Primary Continent Leaders. You will make life long friends around the world and become a member of our worldwide family of 10.000 Sustainable World Leaders.
6. If you have that exceptional commitment towards changing the world, then we have a selection process in place for having a paid position as Sustainable World Leader.
7. National television and other media groups will be invited to witness you, other Sustainable World Leaders and Core Team Members transform our world. This exposure will reflect back to you, your family, your community, your country and/or the organization you are tied up with.
8. Primary Continent Leaders will be prepared to facilitate unique higher consciousness training for new Young World Leaders up to the year 2050. This is where you will empower your local youth leaders in your country and continent.
9. You can play a role in transforming your country, continent or world. You can become a Country Leader, Primary Continent Leader or Project Leader. The entire group of leaders together we name Sustainable World Leaders. Leadership training and Empowerment Tours will be facilitated worldwide. You will meet extraordinary people to learn from. You will meet different local communities to embrace. You will meditate in sacred places. You will become the change you want to see in the world!
10. As a leader you play a lead role in creating a world which works for all people by the year 2050.

STEP 6

Add a new comment to one of the videos you have watched. We have posted all the videos in our Facebook Group. In the following list you find the videos with corresponding link to that specific Facebook post. Tell us in your comment what value you received by watching that video.

Add your comment to your text file and put a heading saying: “STEP 6 – WATCHING 5 VIDEOS”. Do this for every next step so you build this one file with all your comments. At step 37 you will use this file when you apply for being a Sustainable World Leader. We will not repeat this message for the next steps. It is all part of your training. From now onward remember every time you comment to add it to your text file with the step as a heading.
