## **WELCOME PACK WEEK 1 – PARTICIPATING AUDIENCE**

Congratulations on coming to a cross road in your life. The decision you will make by taking the next 2 hours by informing yourself on who we are and what we do, can make a big impact in our world. Imagine it is the year 2050. Imagine the fulfillment you will experience when you have collaborated with people from all around the world. Imagine many people empowered because you were there. This can be part of your unique contribution towards creating a world that works for all people.

Today the inquiry process starts whether you would like to be what we call 'Participating Audience' in our Sustainable World Project. Today we will just take 2 hours to read a bit, listen to an audio, watch two videos and comment on our pinned post on Facebook. If your heart resonates with what we do, then you can choose which one of our Primary Continent Leaders you would like to support.

My name is Mahoro Oliver. I am the first Primary Continent Leader in the Sustainable World Project. I am also one of the moderators in our Facebook Group Sustainable World Project. I was born in Kigali, Rwanda. From Jan 2018 until now I have been participating in the Sustainable World Project. I can tell you from personal experience that this program is changing my life and . . . with your support I believe we can change the world.

## **SHORT INTRODUCTION OLIVER MAHORO**

My name is Oliver Mahoro. I am 30 years old. I used to live in Kigali, Rwanda, Africa. In the Sustainable World Project I am a Primary Continent Leader for Africa. My mission is to inspire a total of 4.000 Sustainable World Leaders by October 2026. They all go out in their countries to launch fun filled events. Worldwide fun filled interactive events will touch humanity. Imagine each and every person in our world experiencing hope and joy on a daily basis. How will this impact their thoughts and feelings? How will this impact their communications and actions? We believe this mission will contribute to the transformation of our world. My name is Oliver Mahoro. My vision is a world where people smile happily every day!

## **UPDATE AUG 2020**

Since May 26<sup>th</sup> 2019 I have joined Richard Alexander at the Sustainable World Leader Training Center in Bangalore, India. Together with Richard and the other Primary Continent Leaders, our focus is now on finding the first 50 Primary Leaders among the 21.000+ leaders in our Facebook group.

In our Facebook group 'Sustainable World Project' we invite people who are interested in transforming their country, continent or world. Through 5 Welcome Packs with a simple 5 step process you can inform yourself on who we are, what we do and whether you would like to support. If you have 2 hours per week you can go through these 5 packs in 5 weeks time. We are looking for mature people who would like to contribute to the creation of a world that works for all people by the year 2050. Mature people who have 2 to 6 hours per week. Lets start today with getting to know one another.

I am working side by side with Richard, Mian, Honest, Suraj and Zaira on finding a total of 50 Primary Continent Leaders, 1000 Country Leaders and 9000 Project Leaders. We have chosen 5 Primary Continent Leaders so far. Maybe you will help us find a next leader. Are you inspired by playing a role in transforming your community, country, continent and world? Then start by just making a 10 hour commitment to read our 5 Welcome Packs. You can take as little as 2 hours per week, or you can go through the packs at a faster pace. We leave it to you to do what works for you.

I will now introduce the Founder of the Sustainable World Project. I have never met anyone like him. He has a unique way of making people feel comfortable and empowered. He accepts people without conditions and he loves to joke around. You can join our weekly session where Richard will also empower you to make your personal and society dreams come true. After nearly two years of participation, I now know we CAN change the world.

## **INTRODUCTION RICHARD ALEXANDER**

He was born in the Netherlands in 1969. He graduated top of his class, Cum Laude, as Civil Engineer. For 5 years he was the CEO of a European IT Company. Richard likes to joke. He says: "I had become a selfish materialistic jerk!" ;) In 1997 he participated in a Reiki weekend. A glimpse of unity consciousness changed everything. In the year 2000 he decided to sell his house, retire from his company, return his car to the dealer and buy a one way ticket around the world. In 2001 he left all behind to pursue an impossible dream. A dream of creating a world that works for ALL people. This was the start of a 50 year project to transform our world.

Now in 2020 he is the Founder of the Sustainable World Project. Our objective is to witness

the end of all poverty, war and environmental destruction before the year 2050. We will achieve this by addressing the root cause of all violence. All violence stems from our lower egoic state of consciousness. To raise our state of consciousness Richard has developed a 50 step plan that is uniting a critical mass of Sustainable World Leaders. These leaders will be supported by every day people, in a role as Participating Audience. As of 2020 we are at step 11 out of 50 and the Sustainable World Project has united over 21000 people from all around the world and attracts dozens of new people every day.

Using ancient wisdom and the latest consciousness science, this critical mass is inspiring heart centered habits for humanity. Habits revolving around the six heart virtues of appreciation, compassion, forgiveness, humility, understanding and valor. These habits will awaken unprecedented experiences of love, joy and inner peace. These habits will inspire humanity to unite; one worldwide family ready to care for one another and share with one another.

Richard has spent more than 20 years to test and develop this project. In that process three times he lost all his money. Like Nelson Mandela he has been falsely accused, jailed, abused and threatened to be killed. He has been jobless, homeless, broke, depressed and suicidal. He has faced death 6 times, gave up 8 houses, 3 cars, a marriage, his family, his country and sometimes almost his sanity. ;) Inspired by the compassion of Mother Teresa and the non-violence of Gandhi he says: "I do not mind. I am willing to give my life for something which can assist humanity to a sustainable world."

Bangalore, India has become his home. People worldwide are getting an opportunity to change the world. Are you ready to support? Then, step up and become what we call Participating Audience. With just 2 to 6 hours per week you can make your unique contribution.
