## WELCOME PACK 2 – SUSTAINABLE WORLD COMMUNITY MEMBERS

This week we invite you to start building the relationship with our Sustainable World Leaders and other Sustainable World Community Members by joining the Sustainable World Community Program. We will tell you how in step 2 at the end of this Welcome Pack. We have realized that workability in our world is intimately correlated to relatedness. To bring change at a global level requires people worldwide to build relationships with one another. Our program is about developing the ability to relate cross culture, religion, color, class, tribe, gender and all other boxes that separate people from one another.

As a Sustainable World Community Member you could help us to build this beautiful worldwide family simply by going through the Welcome Packs and by interacting with us in the weekly Sustainable World Community Program which we live stream on Facebook every Saturday at 7 pm IST.

Today we will share more information on the Sustainable World Project. This week we take 2 hours. We start with an introduction, a bit of history and then why this project is needed, what is the real problem in our world and what is the solution. Then we learn on the innovative money system and we watch two videos.

### Introduction of the Sustainable World Project

The Sustainable World Project will instill higher consciousness values and skills through participation in online and offline local, domestic and international interactive events using guided dialogues, light, sound, movement and touch designed to transcend the Egoic conditioned mind. These sessions will lead to unprecedented experiences of unity consciousness in a critical mass of initially 750 and later 10.000 Sustainable World Leaders. These 10.000 leaders will bring the same unprecedented experiences to millions of

Sustainable World Community Members. As all consciousness is connected these experiences will bring forth new thoughts and new ways of being in the collective consciousness of humanity. This will lead towards new ways of communication, new types of action and new ways of collaboration. These new ways of collaboration will lead to a sustainable world; a world that works for all people by the year 2050.

## History

Through many pilot projects the 9 transformational programs of the Sustainable World Project have been tested, evaluated, modified and re-tested over the last 25 years. After 15 years of preparation we started our 10 year soft-launch including the launch of our online Empowerment Platform in 2015. March 2016 the Founder Richard and a young leader Saba took one year to lay down the foundation for the Sustainable World Project.

June 2016 we started a THRIVE Empowerment Center in Bangalore, India. In 2017 and 2021 we facilitated the first two pilot Empowerment Camps. In 2018 and 2019 we reached out to more than 100.000 leaders and started the pre-selection process for finding Core Team Members. Early 2019 the Founder sold one property in the Netherlands and funded the Soft Launch phase. In a first one year pilot of the Sustainable World Community Program we saw a growth from 800 to nearly 24.000 people in our Facebook group.

Since May 2019 Mahoro Oliver, the first Core Team Member is in India on a 5 year visa. A second Core Team Member, Honest Machirori from Zimbabwe, was chosen. October 2021 Core Team Member for South-Est Asia Shilpa PA stepped up. The Founder Richard has for

now also taken on being a Core Team Member for Europe. In 2023 we have a Core Team of 4 members from Europe, Africa and Asia. This Core Team of is currently interacting with nearly 24.000 leaders in our Facebook Group while setting up systems to support the start of our worldwide implementation phase in 2025.

### **The Sustainable World Project - What is the Need**

Billions of people are suffering on a daily basis. Humanity needs to be assisted to overcome this suffering. Humanity needs to be assisted to move from a young immature violent species, controlled and manipulated by secret rulers, fighting and competing for survival, to an awakened higher consciousness Star Trek society thriving in abundance for all beings.

### **Why is there a Need**

The world is currently in a phase where chaos, violence and suffering is waking up humanity. Technology has evolved faster than consciousness and secret rulers with insane agenda's have brought our world at the brink of destruction. As humanity awakens to unity consciousness worldwide, there is an urgent need for higher consciousness programs. These programs will avoid further, possible severe, consequences coming from an old egoic mindset and will assist humanity in creating a sustainable world.

### **What is the Problem that Creates the Need**

The frequencies at which the human brain operates (i.e. the wavelength of our neural oscillations) have been categorized by the scientific world into different categories: Beta, Alpha, Theta, Delta, Epsilon, Gamma and Lambda. The Beta frequency range is what we call lower egoic consciousness. The lower egoic consciousness is the default state of mind for most people most of the time. The judgment, which comes automatically and frequently in this state of mind, brings an almost continuous, often subconscious experience of separation. The ongoing identification with painful, negative thoughts and feelings leads to unconscious violent communication and action. This is as well to ourselves, as to each other, as to our environment. It causes tremendous suffering for billions of people. It causes a world which does not work for all. The lower (egoic) consciousness is the root cause of all problems worldwide.

### **What Happens when this Project is Not Started?**

My personal experience and my research tell me that our world will awaken no matter what. Universal Laws governing evolution will take care of that. I believe it would be my ego talking if I said that without this project the world will not transform. However, I do believe that this project can support reducing the duration and the intensity of the transition. It will therefore reduce the suffering for billions of people. In this we find our purpose.

### **Solution**

The solution to the problem is to shift the global collective consciousness from lower egoic levels to the higher levels where we experience unity consciousness. For this to happen we need to slow down the mind from the default state of Beta to other states like Alpha. ALL suffering for ALL people can be brought to an end by bringing the minds of a critical mass of the world's population to a higher state of consciousness.

In a higher state of consciousness people automatically reclaim their power through recognition of their inherent connection to all that is. If one is connected to all that is, then one can influence all and therefore heal all and solve all. The Sustainable World Project will unite 10.000 Sustainable World Leaders. They will cause a sustainable shift in their consciousness and the collective consciousness in two ways:

1. **Tangible:** Through Worldwide Interactive Events on our Empowerment Platform, Sustainable World Leaders will impact the consciousness of millions of people on thousands of locations by inspiring participation in shared activities. In our weekly live stream on Saturday 7 pm IST you will start to get a taste of this.
2. **Intangible:** The moment that we have a critical mass of Sustainable World Leaders experience a higher consciousness, (brain activity down) then it will impact the collective consciousness as all consciousness is connected as one. This means that all people here on earth will instantaneously start experiencing shifts in their state

of consciousness. This is scientifically proven by the latest consciousness science and known under different labels like the meditation effect, extended Maharishi effect or the 100<sup>th</sup> Monkey Effect. This effect can be strengthened by the use of Pyramids, specific time slots like 1:30 Sidereal time, by using techniques, like from Heart Math and/or others, to create more coherent thought and heart waves. We are continuously doing research to find more and more effective distinctions to raise the collective consciousness. All these distinctions will be embedded in our 9 programs for radical transformation.

## **ACCESS TO OUR FINANCIAL INCENTIVE SYSTEM AND FUNDING PLAN**

You are currently going through the 5 Welcome Packs for becoming a Sustainable World Community Member. If you find yourself deeply resonating with the project, then you can opt to go through the 5 Welcome Packs for becoming a Sustainable World Leader. In our pinned post on Facebook we lead you to the Welcome Packs for leaders. [Link to Pinned Post](#) You can switch at any given time. Next I will describe the two journeys for leaders and members in terms of the financial incentive system.

## **CREATING A WORLD THAT WORKS FOR ALL PEOPLE BY THE YEAR 2050 STEP 2 OUT OF 5 - SUSTAINABLE WORLD COMMUNITY MEMBERS**

To get a first understanding of our innovative money system that embraces incentives and funding, pls read on our [Innovative Money System](#).

After reading listen to the following voice note that explains the possible incentives and funding for leaders and members. [Listen to the voice note on Incentives and Funding](#)
